FOLLOW THESE 6 STEPS
to help keep us all healthy at pools and beaches

**GET VACCINATED AGAINST COVID-19** if you are 12 years or older.

If you are not fully vaccinated*, WEAR A MASK indoors, except in the water.

If you are not fully vaccinated*, STAY AT LEAST 6 FEET APART— in and out of the water, indoors and outdoors—from people you don’t live with.

**DON’T SHARE ITEMS** that come in contact with the face (such as goggles, nose clips, and snorkels).

**COVER YOUR COUGHS AND SNEEZES** with a tissue or your elbow, throw the tissue in the trash, and wash your hands.

**WASH YOUR HANDS OFTEN** with soap and water for at least 20 seconds or use hand sanitizer with at least 60% alcohol.

* People are fully vaccinated 2 weeks after their second dose of a 2-dose vaccine (such as the Pfizer-BioNTech or Moderna vaccine) or 2 weeks after a single-dose vaccine (such as Johnson & Johnson’s Janssen vaccine).

Now, let’s swim!
