Coronavirus Disease 2019 (COVID-19) Risk Assessment and Public Health Management Decision Making

Each question refers to within the past 14 days

- Did the person being evaluated travel from China?
  - NO
  - Did the person have any contact with a laboratory-confirmed case of COVID-19*?
    - YES
    - Is the person being evaluated a healthcare worker in a U.S. healthcare setting?
      - YES
      - Refer to Guidance for Risk Assessment and Public Health Management of Persons with Potential COVID-19 Exposure**
      - NO
      - Did the person travel from Hubei, China specifically?
        - YES
        - Did the person being evaluated have contact with a person with confirmed COVID-19 in the context of living with, being an intimate partner of, or caring for the person, outside a healthcare facility?
          - YES
          - Were all recommended precautions for home care and isolation followed consistently?
            - YES
            - Did the person contact respiratory secretions or was the person within 6 feet of a case for a prolonged period?
              - YES
              - Was the person in the same indoor environment as a case for a prolonged period but did not meet the definition of close contact (e.g., in the same classroom or same hospital waiting room)?
                - YES
                - Actions for people with symptoms consistent with COVID-19: Immediate isolation; medical evaluation guided by PUI definition; pre-notify healthcare services; controlled travel
                - NO
                - Actions for people without symptoms consistent with COVID-19: Remain under quarantine authority; no public activities; daily active monitoring; controlled travel
              - NO
              - Actions for people with symptoms consistent with COVID-19: Stay home from work or school, avoid contact with others, don't travel. Seek health advice
            - NO
            - Actions for people without symptoms consistent with COVID-19: Stay home; active monitoring or self-monitoring with public health supervision; recommend to not travel
          - NO
          - Actions for people without symptoms consistent with COVID-19: Isolate; medical evaluation guided by PUI definition; pre-notify healthcare services; controlled travel
        - NO
        - Actions for people with symptoms consistent with COVID-19: Immediate isolation; medical evaluation guided by PUI definition; pre-notify healthcare services; controlled travel
      - NO
      - Actions for people with symptoms consistent with COVID-19: Stay home from work or school, avoid contact with others, don't travel. Seek health advice
    - NO
    - Actions for people without symptoms consistent with COVID-19: Stay home; active monitoring or self-monitoring with public health supervision; recommend to not travel
  - YES
  - Actions for people with symptoms consistent with COVID-19: Immediate isolation; medical evaluation guided by PUI definition; pre-notify healthcare services; controlled travel
- Did the person travel from Hubei, China specifically?
  - NO
  - Actions for people with symptoms consistent with COVID-19: Stay home from work or school, avoid contact with others, don't travel. Seek health advice
  - YES
  - Actions for people with symptoms consistent with COVID-19: Immediate isolation; medical evaluation guided by PUI definition; pre-notify healthcare services; controlled travel

Actions for people with symptoms consistent with COVID-19:
- Immediate isolation; medical evaluation guided by PUI definition; pre-notify healthcare services; controlled travel
- Stay home from work or school, avoid contact with others, don't travel. Seek health advice

Actions for people without symptoms consistent with COVID-19:
- Remain under quarantine authority; no public activities; daily active monitoring; controlled travel
- Stay home; active monitoring or self-monitoring with public health supervision; recommend to not travel

High Risk: Remain under quarantine authority; no public activities; daily active monitoring; controlled travel

Medium Risk: Stay home; active monitoring or self-monitoring with public health supervision; recommend to not travel

Low Risk: Self observation

No identifiable risk: None

*Or a case diagnosed clinically with COVID-19 infection outside of the United States who did not have laboratory testing
**Healthcare provider (HCP) guidance outlines risk categories to determine work exclusion and monitoring procedures. After identifying risk category in the HCP guidance, use the categories outlined here to determine quarantine requirements.
