New Hospital Admissions
Reported
Ensemble
Individual models
Inner Bands: 50% Prediction Intervals
Outer Bands: 95% Prediction Intervals
Update: 2022-07-04
**New daily confirmed COVID-19 hospital admissions may increase in this location over the next four weeks. For these locations, the ensemble forecast indicates a median daily probability of 0.75 or greater that more hospital admissions will be reported in the last seven days of the forecast than the median in the last seven days of reported data.
