## Healthcare Appointment Checklist for Post-COVID Conditions | COVID-19 |

 $Accessible \ link: \ \underline{https://www.cdc.gov/coronavirus/2019-ncov/long-term-effects/post-COVID-appointment/index.html$ 

This checklist is designed to help patients and caregivers get the most out of appointments with healthcare providers for post-COVID conditions.

## **Before the Appointment**

- Ask the new provider's office if they need **paperwork** signed so your medical records can be sent to them directly.
- Keep a journal or a list for a week or two to document your activities, symptoms, their severity, and anything that made you feel better or worse.
- Prepare a brief **report** that summarizes your experience and symptoms and describes your best and worst days.
- □ Make a list of your **current** medications/supplements.
- Make a list of **questions to ask your healthcare provider**. Identify which ones are a priority for you (in case time is limited).
- Make a **plan for remembering** your conversation with your healthcare provider e.g., taking notes or bringing a friend.
- □ If needed, arrange **transportation** to your appointment.

## **During the Appointment**

- Tell your provider the most important symptoms or issues you'd like to discuss.
- □ Answer the **provider's questions**.
- □ Share your **medication/supplement list**.
- Discuss your **level of activity.**
- □ **Ask your own questions**, starting with your priorities and issues.
- □ Make sure you understand the **next steps**, such as tests, follow-up, referrals, and future appointments.
- Ask for an **appointment summary**. If needed, ask the provider to write down or print out any instructions, medication names, or diagnoses.

## After the Appointment

- □ **Make appointments** for follow up.
- Record future appointments, including tests, in your calendar. If others will go with you or drive you to future appointments, make sure the appointments are on their calendars too.
- □ Follow your **provider's instructions** to the best of your ability.
- □ Contact your provider's office with any **questions or clarifications**.
- Continue to record symptoms and keep your journal, so you can refer to updates or changes during your next appointment.
- Update and keep track of medications and supplements.
