

Two times a day (morning and night), write down your temperature and any COVID-19 symptoms you may have: **fever, coughing, or trouble breathing**. Do this every day for 14 days.

1. Fill in the dates on the log, starting with Day 0 and ending with Day 14. Day 0 is the day you left another country or returned home from a cruise.
2. Start recording your temperature and symptoms, beginning with today's date.
3. Your health monitoring is complete 14 days after the day you left another country or returned home from a cruise.

**If you get sick:** • Stay home. Avoid contact with others. • You might have COVID-19; most people are able to recover at home without medical care. • If you have trouble breathing or are worried about your symptoms, call or text a health care provider. Tell them about your recent travel and your symptoms. • Call ahead before you go to a doctor's office or emergency room.
