Coronavirus Disease 2019 (COVID-19)

Know Your Risk of Getting COVID-19

[No sound. Silent video.]

Your risk of COVID-19 increases

when you see more faces,

are in indoor spaces with poor ventilation,

and linger in places.

You can reduce your risk by

avoiding crowds,

limiting close contact with people who are sick,

getting a COVID-19 vaccine and staying up to date,

testing to prevent spread to others, and choosing uncrowded outdoor spaces.
