## Coronavirus Disease 2019 (COVID-19)

### Key Times to Wear Gloves

1. Use disposable gloves when disinfecting after someone who is sick, like when you wash the dishes, do their laundry or disinfect other surfaces they have touched.
2. In most other situations, like running errands wearing gloves is not necessary.
3. Protect yourself by frequently washing your hands.
4. Use disposable or reusable when a cleaning product's instructions say to use gloves.
