

## Coronavirus Disease 2019 (COVID-19)

COVID-19 vaccine conversations with friends

COVID-19 vaccines are new. It's normal for people to have questions about them.

Listen to friends' and family's questions with empathy.

Ask open-ended questions to explore their concerns.

Share trusted information with them.

Help them find their own reason to get vaccinated.

Help make their vaccination happen. Offer to:

- Make their appointment
- Accompany them
- Drive them
- Babysit for them

You can build vaccine confidence.

Each vaccinated person helps us move past the COVID-19 pandemic.
