

Coronavirus Disease 2019 (COVID-19)

Visiting friends & family with higher risk for severe illness

No sound. Silent video

COVID-19: Spending time with friends and family who need to take extra precautions.

When you visit friends & family who are at higher risk for severe illness from COVID-19, remember

Wear masks.

Stay 6 feet (about two arm lengths) apart. At least 6 feet

Meet outside if possible.

Wash hands often.

Clean high-touch surfaces regularly and after you have visitors in your home.

Those at higher risk for severe illness should continue taking all precautions, even if they are fully vaccinated.

Protect your family and friends.

Get a COVID-19 vaccine as soon as you can.
