

What is **CDC TRAIN**?

CDC TRAIN is CDC's online learning management system, offering public health professionals a single place to locate CDC-developed learning opportunities.

www.train.org/cdctrain/

Make it **EASY FOR LEARNERS** to Find Your Courses

How CDC TRAIN **Benefits** your Program...

REACH...

Make your course available to 1.5 million registered learners

MANAGE...

Assign training to a specific group of learners and monitor their progress towards completion

Test knowledge and collect feedback

Develop custom curricula

Generate course reports

CDC is a **Member** of the **TRAIN Learning Network**...

The **TRAIN Learning Network** is a national system used by 30 member organizations to manage and share public health training. Each member has a doorway into the shared system allowing organizations to collaborate, save cost by reducing duplication, and reach one another's learners.

Use **CDC TRAIN** to manage your courses and make them available to the public health workforce.
