JDS Background/Overview

Why is this information collected?

The state JDS provides high level information on MCM dispensing plan coverage, EOC and command staff, dispensing staff, and RSS staff.

What impacts achieving “Established” status?

To be eligible for this status, you must update and submit the JDS annually (July 1–June 30).

Jurisdictional Data Sheet (JDS) : STATE

State Population	Population will be auto-populated from Census Bureau data (https://www.census.gov).
Number of county/city/tribal local health departments	Include all planning jurisdictions within your state.
Number of county/city/tribal local health departments required to develop local mass prophylaxis plans	Include all planning jurisdictions that are required to develop mass prophylaxis plans.
Number of local CRI planning jurisdictions	Include all planning jurisdictions from all CRI MSAs within the state.

Jurisdictional Data Sheet (JDS) : STATE

Number of non-CRI planning jurisdictions	Provides an overview of MCM coverage in jurisdictions throughout the remainder of the state and the degree to which the MCM coverage is reviewed by the state.
Total intermediate sites (include Regional/Local Distribution Sites (RDS/LDS)) that receive materiel directly from the RSS	If there are no intermediate sites within your state, enter 0.
Total number of designated primary Open (Public) Point of Dispensing (PODs) statewide	Include the total number of open PODs that you would open to prophylax your entire population.

Jurisdictional Data Sheet (JDS) : STATE

Distribution assets identified in the state plan for use in primary and any additional RSS sites	Include distribution assets that you would use for any RSS sites and/or other distribution sites during an MCM response.
EOC and Command Staff	Count current and needed public health EOC and command staff directly related to a public health activation in an anthrax planning scenario. States should have staffing available for 24-hour operations.
Required dispensing staff	Complete if state dispenses any MCM directly to 1) public health responders, or 2) critical infrastructure staff (CIS) through an open or closed POD.
RSS Staff	Count current and needed staff for each active RSS.
