Grants Management Issues and COVID-19 Funding

Shirley Byrd
Grants Management Officer
Office of Grants Services (OGS)

Mark A. Davis
Associate Director for Financial and Management Services
Division of State and Local Readiness (DSLR)

May 28, 2020
Agenda

- PHEP Issues
  - Moving into BP2
  - FFRs
- COVID Issues
  - Revised NOAs
  - Prior Approval
- Administrative Waivers
- REDCAP Issues
- Other Considerations
PHEP Issues

- Budget Period 1 ends June 30; BP2 starts July 1
- Original PAHPS legislation provides for two-year availability of funds
- There is no carry-over request required
- Expanded authority means you have pre-approval to continue using your BP1 funds for approved activities until June 30, 2021
- PERFORMS will continue to track BP1 separately to maintain the integrity of each fiscal year’s funding and to facilitate reporting
- Reviews are now being completed, and BP2 Notices of Award will be released during June
- Annual Federal Financial Report (FFR) due no later than September 30
COVID Crisis Cooperative Agreement (CoAg) Issues

- Performance Period: March 16, 2020 – March 15, 2021
- We have received almost all revised work plans, budgets and Community Intervention Plan summaries
  - Those are being reviewed by task force subject matter experts and project officers; recommendations are being submitted to OGS for inclusion with revised Notices of Award, which will be released as soon as possible
- We will work with recipients to ensure questions are answered, clarification is provided, and suggestions are passed along to help ensure success
- June 14, 2021: deadline for all eligible expenditures to be liquidated
Crisis CoAg Prior Approval Requirements

- Prior approval from CDC is required for alteration or renovation of nonfederal facilities that directly support activities in six domains of allowable activities.

- Normal rules around prior approval apply to Crisis CoAg:
  - Required for change of principal investigator, change of scope, when sum of redirections equals $250,000 or more, major equipment purchases.
  - Prior approval for contracts or general personnel is not required.
  - You must follow your own procurement guidelines and keep good records for audit purposes.
Administrative Waivers

- OMB Memorandum M-20-17, dated March 19, 2020, allows for relief of some requirements to provide flexibility with administrative issues.
- The memorandum is currently set to expire on June 30, 2020 (unless extended).
- Some of the options would not apply to PHEP currently, such as no-cost extensions (PAHPA limits funding to two-year availability).
- Some may be considered on a case-by-case basis, such as:
  - Prior approval requirements
  - Certain procurement requirements
  - Extension of indirect cost rates
REDCap Issues

- GrantSolutions is the official system of record for grant actions
- REDCap will function similar to PERFORMS for program monitoring
- REDCap is largely configured by domain so that we have some way of reporting how money is being used
- CDC staff have copied budgets and workplans over to REDCap where possible; recipients should validate or change as needed
- Monthly spending reports should be entered in REDCap by the 15th of the month following
  - Break out by domain as much as possible
  - Can approximate or use the predominant domain for contracts/locals
  - Use notes fields to add information if helpful
Other Considerations

- Various funding streams available: PHEP, HPP, COVID-19, ELC, FEMA
  - Recipients will need to decide which funds to use and track appropriately for audit purposes, especially if there are split costs
  - COVID funds CANNOT pay the 25% share of FEMA reimbursements
- Equipment rules: follow jurisdictional procurement guidelines
- ELC just released over $10 billion for COVID response activities
  - CDC is developing a crosswalk document to help show where differences in allowable expenses exist – but there is a lot of overlap
- Please draw down from PMS regularly as CDC reports to leadership on a weekly basis; there are still 20 jurisdictions who haven’t drawn anything
- Temporary reassignment of personnel seems to working well now; approval is as short as a few hours
Resources

Several online resources exist:

- [www.CDC.gov/coronavirus](http://www.CDC.gov/coronavirus)  CDC’s main page for information, resources, tools and tips
- [https://www.cdc.gov/cpr/readiness/funding-covid.htm](https://www.cdc.gov/cpr/readiness/funding-covid.htm)  Crisis CoAg funding information, including FAQs
- [https://www.cdc.gov/grants/public-health-emergencies/covid-19/index.html](https://www.cdc.gov/grants/public-health-emergencies/covid-19/index.html)  Grants information pertinent to COVID-19; includes info for temporary reassignment of personnel and prior approval waivers
THANK YOU

For COVID cooperative agreement questions, please contact your project officer or:
DSLRCrisisCoAg@cdc.gov

For PHEP questions please contact your project officer or:
Preparedness@cdc.gov

For more information, contact CDC
