## Acknowledgements

The authors would like to thank the following people for their valuable contributions to the publication of the *Atlas*: Amanda Crowell, for her outstanding editorial skills and dedication, every step of the way, toward producing a top-quality *Atlas*; Kate Mollenkamp, for her exceptional work on the graphics, formatting, and layout of the *Atlas* and for her attention to detail to ensure every map is perfect; Paula Yoon, Nora Keenan, and Cathleen Gillepsie for their thorough review and subject matter expertise in shaping the conceptual and methodological aspects of the *Atlas*; Linda Schieb and Ishmael Williams for their valuable GIS assistance; Sheryl Jameson for her thoroughness in updating Appendix C; and the following reviewers for their comments on earlier drafts: Yuling Hong, Robert Merritt, and Darwin Labarthe, National Center for Chronic Disease Prevention and Health Promotion, CDC.

In addition, the authors would like to acknowledge the exceptional work performed by the Centers for Medicare & Medicaid Services (CMS) staff in maintaining the CMS data files. Without the rigorous and systematic recording and categorizing of the information from Medicare claims nationwide, the production of the *Atlas of Heart Disease Hospitalizations Among Medicare Beneficiaries* would not be possible.

**Sophia Greer, MPH**, is an epidemiologist with the Northrop Grumman Corporation who works on the Small Area Analysis Team within the Division for Heart Disease and Stroke Prevention at the Centers for Disease Control and Prevention (CDC). Her research focuses on geographic, racial, and ethnic disparities as well as social determinants of heart disease and stroke.

**Isaac A. Nwaise, MA**, is a statistician and Geographic Information Systems (GIS) analyst with the Small Area Analysis Team within the Division for Heart Disease and Stroke Prevention at CDC. His research interests include health economics; GIS applications; and geographic, racial, and ethnic disparities in heart disease and stroke.

**Michele L. Casper, PhD**, is an epidemiologist and acting team leader of the Small Area Analysis Team within the Division for Heart Disease and Stroke Prevention at CDC. Her research focuses primarily on the geographic, racial, and ethnic disparities in heart disease and stroke.
