

Cyclospora, *Cryptosporidium*, and *Cystoisospora belli*

Oocysts in stool smears stained with modified acid-fast stain:

- A *Cryptosporidium* sp.
- B *Cyclospora cayetanensis*
- C *Cystoisospora belli*

Oocysts in stool smears stained with safranin stain:

- D *Cryptosporidium* sp.
- E *Cyclospora cayetanensis*
- F *Cystoisospora belli*

Wet mount preparations

G *Cyclospora cayetanensis* sequence showing sporulation event from unsporulated oocyst (far left) to sporulated oocyst containing 2 sporocysts (far right) under differential interference contrast (DIC)

H *Cystoisospora belli* (UV fluorescence microscopy)

I *Cyclospora cayetanensis* (UV fluorescence microscopy)
