In Focus

CMS Centralized Repository for Public Health Readiness

In September 2016, the Centers for Medicare & Medicaid Services (CMS) released a data collection form for public health agencies (PHAs) and clinical data registries to be listed in a Centralized Repository of registries. The Repository will assist Eligible Professionals, Eligible Hospitals and Critical Access Hospitals find entities that accept electronic public health data to meet measures for the Electronic Health Record (EHR) incentive programs MU (Meaningful Use). Participation in the Centralized Repository is voluntary; however, it is another method for PHAs to communicate with their stakeholders the PHA's readiness to accept data in 2017. The CMS data collection form is posted at the link below-

https://www.cms.gov/Regulations-and-Guidance/Legislation/EHRIncentivePrograms/Downloads/EHR_CentRepos_Form.pdf

The deadline for PHAs to submit the public health readiness data to meet measures for the Electronic Health Record (EHR) incentive programs MU (Meaningful Use) is October 31, 2016.

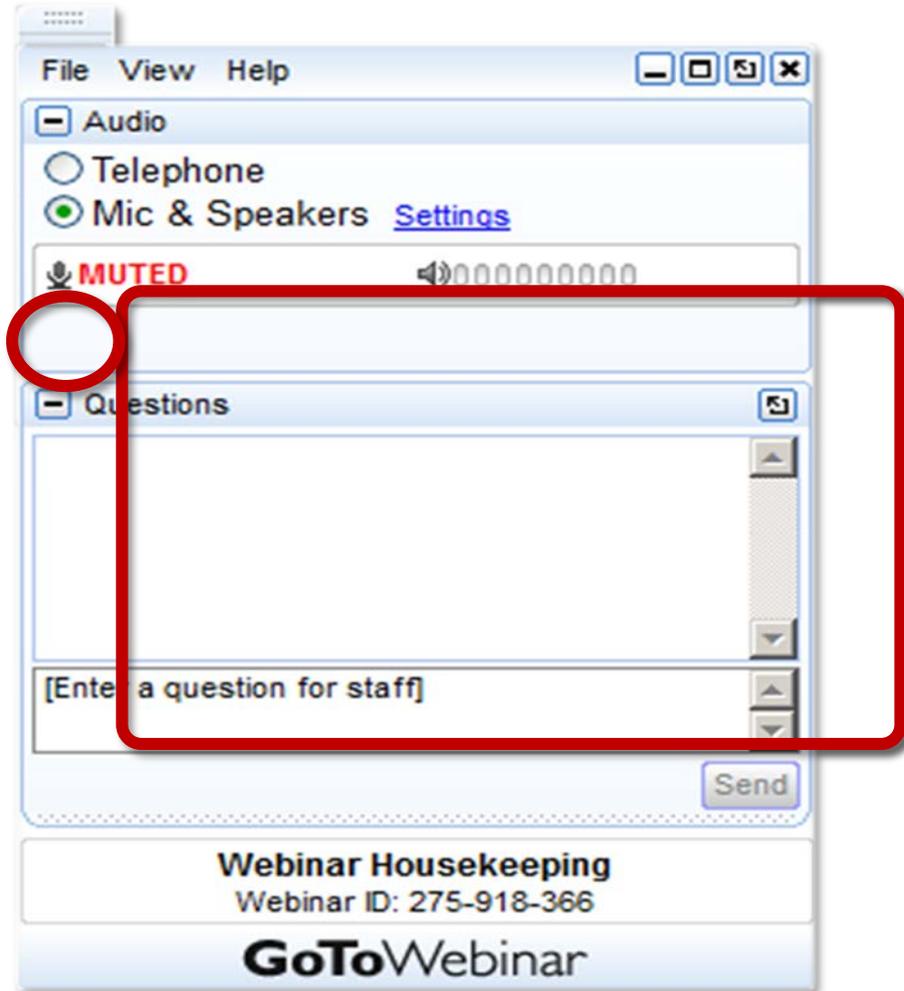

The Stage 3 Meaningful Use Public Health Reporting Requirements Task Force has created guidance on what to post on the PHA website and other considerations for Meaningful Use in 2017.

A copy of the guidance document is posted below
