

FIGHT FLU

class assignments
final exams
week of school

Any flu can make your children sick enough to miss school, activities, or even be hospitalized.

Rarely, even healthy children can die from flu complications.

Vaccinate your kids against seasonal and 2009 H1N1 influenza (swine flu).

WHAT COULD YOUR CHILD MISS?

For information, visit www.flu.gov, or call 1-800-CDC-INFO.
