Recommended Strategies for Businesses and Employers

The purpose of this Toolkit is to help businesses and employers fight the flu and to offer tips and suggestions to consider when planning and responding to the seasonal flu. Additional information can be found at the CDC website, http://www.cdc.gov/flu/business

CDC recommends two strategies this season for businesses and employers to help fight the flu.

**Strategy 1:** Host a flu vaccination clinic in the workplace.

To minimize absenteeism, employers frequently offer onsite seasonal flu vaccination to employees at no or low cost to their employees. This option can work well if the employer has an on-site occupational health clinic. If you don’t have a clinic, pharmacies and community vaccinators can be contracted to provide seasonal flu vaccination services on-site.

**Strategy 2:** Promote flu vaccination in the community.

Make sure your employees know where they and their families can get seasonal flu vaccines in their community. Additionally, find out what health care providers, pharmacies and clinics provide seasonal flu vaccines. Partner with a pharmacy or provider to get your employees vaccinated.

Even healthy people can get the flu, and it can be serious.
