CFDA # and Title	93.067 – Global AIDS
Purpose of the Award	<p>The goal of this program is to strengthen human resources for health, building the capacity of health providers in Ethiopia to improve the quality of healthcare and mitigate the impact of HIV in the country. This program will contribute to a sustainable approach for health worker retention because of the growing importance of continuing medical education in Ethiopia.</p>
Single Source Justification Reasons Cited	<p>The FOA objective is to strengthen the capacity of the Ethiopian Medical Association, to in turn build the capacity of the national health workforce in a sustainable manner. As such, the Ethiopian Medical Association is the only organization that can effectively do so.</p> <p>The Ethiopian Medical Association (EMA) is the Ethiopian counterpart to the American Medical Association (AMA). Founded in 1961, EMA has 50 years of experience as the only professional association for clinical physicians in Ethiopia. EMA is a recognized credentialing institution under the Directorate of Health Services of the Federal Ministry of Health, which is responsible for the credentialing of health workers nationwide.</p> <p>EMA has a number of medical associations and societies in its membership, including The Ethiopian Society of Obstetrics and Gynecologists, The Ethiopian Pediatric Society, The Ethiopian Surgical Society and The Ethiopian General Practitioners Association. EMA works closely with these and other associations. All members of these organizations are EMA members. EMA membership is extensive and nationwide.</p> <p>EMA, through its charter and national recognition, is uniquely positioned to build the organizational, administrative and technical capacity of health professional associations in Ethiopia, and provide continuing medical education to health providers</p>
