Funding Opportunity Announcement CDC-RFA-GH16-1700

Supporting the Implementation and Expansion of High Quality, Sustainable and Comprehensive HIV Prevention, Care and Treatment Programs in the Central Region and Laikipia County of the Republic of Kenya under the President’s Emergency Plan for AIDS Relief (PEPFAR)

	Question	Response
1.	What remains is the issue related to the health facilities/sites and sub counties which are currently being supported partially through the USAID partners. Are all the facilities in these counties factored in this FOA or we leave out the ones supported by USAID partners?	Please see the site list beginning on page 2 of this document.
2.	Would CDC please clarify the Scope of Work for OVC support intended for the above listed grants?	Applicants should respond to the specific outcomes and targets described in the FOA.
3.	Must applicants submit proposals covering the entire geographic region in the FOAs, or can an applicant submit a proposal for activities in select counties within the region covered by the FOAs listed above?	The scope of the application is ultimately at the discretion of the applicant. However, At Phase II Review, objective reviewers assess applications against all of the requirements of the FOA using the phase II review criteria.
