

(From Participant Guide)

Activity

Instructions:

1. Use the Community Guide to find evidence on interventions for **cardiovascular disease prevention and control**.
2. Describe one recommended evidence-based behavioral intervention or one policy, systems & environmental (PSE) intervention in the space below.

Participants may describe one of the following:

- *Reducing Out-of-Pocket Costs for Cardiovascular Disease Preventive Services for Patients with High Blood Pressure and High Cholesterol*
 - *Team-Based Care to Improve Blood Pressure Control*
3. Provide a summary of evidence that supports implementing the intervention in the space below.
