

# HURRICANE MATTHEW IN HAITI

## CDC quickly set up a command center

and swung into action, working with USAID, World Health Organization, and other partners to address the hurricane's impact.

## CDC dispatched many of its experts

to CDC's Haiti office to help respond to the dire situation.

## CDC has worked in Haiti since 2002

and remains committed to helping build a stronger, healthier Haiti.

**175,509**  
people were displaced from their homes.

## Hurricane Matthew impacted 2.1 million people

in Haiti, leaving **1.4 million** in need of assistance — including more than **1/2 million** children.
