

## 2011 Public Health Informatics Conference

### Global Workshop

Sunday, Aug 21, 1:00 – 5:00 pm

Room Fairlie, Hyatt Regency, Atlanta

#### Theme: Building an Informatics Agenda for Global Health

Goal: To build a viable informatics roadmap to address current and future global health challenges, and support the implementation of information and communications technology and science to improve health worldwide.

#### Objectives:

1. Bring together and engage public health informatics and global health leaders around a defined health informatics framework to facilitate the development of recommendations and guiding principles for the formation of a global health informatics roadmap
2. To identify evidence-based best practice and practical solutions in public health informatics for consideration as key elements of the roadmap
3. To define the priorities and formulate next steps to continually evolve a global health informatics agenda

Leaders in global health and public health informatics will facilitate discussions regarding key elements of this roadmap among global health informatics stakeholders using the “2008 Bellagio eHealth Call to Action” as a starting framework.

#### Workshop thought leaders:

Christopher Bailey (WHO), Janise Richards (CDC), Ramesh Krishnamurthy (WHO), Raymond Ransom (CDC), Muzna Mirza (CDC), Donna Medeiros (RTI), Xiaohui Zhang (STC), Mary Kratz (UMich), Jamie Pina (RTI), Prachi Mehta (CDC), Wei Li and others.

#### Workshop tracks (drafts):

- Planning and agenda setting
- Policy and governance
- Knowledge Management and Fostering Collaborative Networks and Global Partnerships
- Capacity Building
- Globally Reusable Resources: Metrics, Tools, Processes, Templates and Digital Assets

#### Registration:

##### PHI Conference:

Attendees are required to register for PHIC to attend any of the global informatics events. If you are only planning on attending one event, you may do a one-day registration. <http://www.cdc.gov/phiconference/registration.html>

##### Workshop:

Please request registration for the workshop at <http://kwiksurveys.com?u=PHIworkshop>. There is no additional cost for participating in this session of the 2011 PHI Conference. You will be informed once your registration has been processed and approved.

**Note:**

RTI International is hosting a networking reception/dinner for all workshop participants at a local restaurant. For more information about global workshop and dinner reservations, please write to: Donna Medeiros at [djm@rti.org](mailto:djm@rti.org)
