Preface

Acknowledgments

Abbreviations and Acronyms

Definitions

Standards and Organizations

Executive Summary

Chapter 1—Housing History and Purpose

Introduction

Preurban Housing

 Ephemeral Dwellings

 Episodic Dwellings

 Periodic Dwellings

 Seasonal Dwellings

 Permanent Dwellings

Urbanization

Trends in Housing

Basic Principles of Healthy Housing

 Fundamental Physiologic Needs

 Fundamental Psychologic Needs

 Protection Against Disease

 Protection Against Injury

 Protection Against Fire

 Protection Against Toxic Gases

References

Additional Sources of Information

Chapter 2—Housing Regulations

Introduction

History

Zoning, Housing Codes, and Building Codes

 Zoning and Zoning Ordinances

 Zoning Objectives

 Content of the Zoning Ordinance

 Exceptions to the Zoning Code

 Housing Codes

 History

 Objectives

 Critical Requirements of an Effective

Housing Program

 Content of a Housing Code

 Administrative Provisions of a Housing

Code

 Substantive Provisions of a Housing Code

 Building Codes

References

Additional Sources of Information

Chapter 3—Disease Vectors and Pests

Introduction

Disease Vectors and Pests

 Rodents

 Cockroaches

 Fleas

 Flies

 Termites

 Fire Ants

 Mosquitoes

References

Chapter 4—Indoor Air Pollutants and Toxic Materials

Introduction

Indoor Air Pollution

 Biologic Pollutants

 Cockroaches

 House Dust Mites

 Pets

 Mold

 Chemical Pollutants

 Carbon Monoxide

 Ozone

 Environmental Tobacco Smoke or

Secondhand Smoke

 Volatile Organic Compounds

 Radon

 Pesticides

Toxic Materials

 Asbestos

 Lead

 Controlling Lead Hazards

 Arsenic

References

Chapter 5—Housing Structure

Introduction

 New Housing Terminology

 Old Housing Terminology

Foundation

Vapor Barriers

 Crawl Space Barriers

 Vapor Barriers for Concrete Slab Homes

 Wall and Ceiling Vapors

House Framing

 Foundation Sills

 Flooring Systems

 Studs

Healthy Housing Reference Manual
DRAFT Table of Contents: Do not cite or quote

Chapter 5 (continued)

- Interior Walls
- Stairways
- Windows
- Doors
 - Garage Doors
 - Exterior House Doors

Roof Framing

- Rafters
- Collar Beam
- Purlin
- Ridge Board
- Hip
- Roof Sheathing
- Dormer

Exterior Walls and Trim

Roofs

- Asphalt Shingle
- EPDM
- Asphalt Built-up Roofs
- Coal Tar Pitch Built-up Roofs
- Slate Roofs
- Tile Roofs
- Copper Roofs
- Galvanized Iron Roofs
- Wood Shingle Roofs
- Roof Flashing
- Gutters and Leaders

Putting It All Together

References

Chapter 6—Environmental Barriers

Introduction

Roof

Insulation

Siding

- Stucco

- Vinyl

- Asbestos

- Brick

- Metal

References

Chapter 7—Rural Water Supplies and Water-quality Issues

Introduction

Water Sources

Source Location

Well Construction

- Sanitary Design and Construction

- Pump Selection

Chapter 7 (continued)

Dug or Drilled Wells

- Springs

- Cisterns

Disinfection of Water Supplies

- Chlorine Carrier Solutions

- Routine Water Chlorination (Simple)

Backflow, Back Siphonage, and Other Water Quality Problems

- Backflow

- Back Siphonage

- Other Water Quality Problems

Protecting the Groundwater Supply

References

Additional Sources of Information

Chapter 8—Plumbing

Introduction

Plumbing Standards Organizations

Elements of a Plumbing System

- Water Service

- Hot and Cold Water Main Lines

- Hot and Cold Water Piping Materials

- Hot Water Safety

- Types of Water Flow Controls

Water Heaters

Drainage System

- Sanitary Drainage System

- Traps

- Ventilation

- Total Drainage System

Corrosion Control

Water Conservation

Putting It All Together

References

Additional Sources of Information

Chapter 9—On-site Wastewater Treatment

Introduction

Treatment of Human Waste

On-site Wastewater Treatment Systems

- Septic Tank Systems

- Absorption Field Site Evaluation

- Absorption Field Trench

- Alternative Septic Tank Systems

- Mound Systems

- Low-pressure Pipe Systems

- Plant-rock Filter Systems (Constructed Wetlands)

Maintaining On-site Wastewater Treatment Systems

Healthy Housing Reference Manual
DRAFT Table of Contents: Do not cite or quote

Chapter 9 (continued)

- Symptoms of Septic System Problems
- Septic Tank Inspection
 - Inspection Process
 - Scum Measurement
 - Sludge Measurement
- References
- Additional Sources of Information

Chapter 10—Electricity

- Introduction
- Flow of Electric Current
- Electric Service Entrance
 - Service Drop
 - Underground Service
 - Electric Meter
- Grounding
- Two- or Three-wire Electric Services
- Residential Wiring Adequacy
- Wire Sizes and Types
 - Reducing Risk
 - Wire Sizes
 - Wire Types
- Types of Cable
- Flexible Cords
 - The Problem
 - The Standards
 - Safety Suggestions
- Wiring
 - Open Wiring
 - Concealed Knob and Tube Wiring
- Electric Service Panel
- Over-Current Devices
 - Circuit Breakers (Fuseless Service Panels)
 - Ground Fault Circuit Interrupters
 - Arc-fault Circuit Interrupters
 - Fused Ampere Service Panel (Fuse Box)
- Electric Circuits
 - Outlet Switches and Junction Boxes
 - Grounding Outlets
 - Polarized Plugs and Connectors
- Common Electrical Violations
 - Excessive or Faulty Fusing
 - Cords Run Through Walls or Doorways and
- Hanging Cords or Wires
 - Temporary Wiring
 - Excessively Long Extension Cords
 - Dead or Dummy Outlets
 - Aluminum Wiring Inside the Home
- Inspection Steps
- References

Chapter 11—Heating, Air Conditioning, and Ventilating

- Introduction
- Heating
 - Standard Fuels
 - Coal
 - Fuel Oil
 - Gas
 - Electricity
 - Solar Energy
 - Central Heating Units
 - Heating Boilers
 - Heating Furnaces
 - Fuel-Burning Furnaces
 - Steam Heating Systems
 - Water Heating Systems
 - Air Heating Systems
 - Space Heaters
 - Coal-fired Space Heaters
 - Oil-fired Space Heaters
 - Electric Space Heaters
 - Gas-fired Space Heaters
 - Venting
 - Hydronic Systems
- Cooling
 - Air Conditioning
 - Circulation Fans
 - Evaporation Coolers
- Safety
 - Chimneys
 - Fireplaces
- References
- Additional Sources of Information

Chapter 12—Energy Efficiency

- Introduction
- Energy Systems
- R-values
- Roofs
 - Ridge Vents
 - Fan-Powered Attic Ventilation
 - White Roof Surface
- Insulation
 - Wall Insulation
 - Floor Insulation
 - Batt Insulation
 - Cavity Fill
 - Blow-in Insulation
- Doors
 - Standard Doors
 - Sliding Glass Doors

Healthy Housing Reference Manual
DRAFT Table of Contents: Do not cite or quote

Chapter 12 (continued)

- Door Installation
- Hot Water Systems
- Windows
 - Caulking and Weather-stripping
 - Caulking
 - Weather-stripping
 - Replacing Window Frames
 - Tinted Windows
- Reducing Heat Loss and Condensation
 - Glazing
 - Layering
 - Other Options
- Solar Energy
 - Active Solar Systems
 - Passive Solar Systems
- Conducting an Energy Audit
- References
- Additional Sources of Information

Chapter 13—Residential Swimming Pools and Spas

- Introduction
- Child-proofing
- Hazards
- Public Health Issues
 - Diseases
 - Injuries
- Water Testing Equipment
- Disinfection
- Content Turnover Rate
- Filters
 - High-rate Sand Filters
 - Cartridge Filters
 - Diatomaceous Earth
 - Filter Loading Rates
- Disinfectants
 - Effect of pH
 - Chlorine Disinfectants
- Pool Water Hardness and Alkalinity
- Liquid Chemical Feeders
 - Positive Displacement Pump
 - Erosion and Flow-through Disinfectant
- Feeders
- Spas and Hot Tubs
- References
- Additional Sources of Information
