

# Analysis of State Health Education Laws

## NORTH DAKOTA SUMMARY REPORT

### Overview

State laws and regulations in health education serve as a foundation to drive school-based programs and instruction. Well-designed and well-implemented sexual health education programs have been shown to reduce student risky sexual behaviors and improve health-related behaviors and outcomes. The following report provides a snapshot of **North Dakota** laws and regulations and school health policies and practices related to sexual health education, HIV prevention education, STD prevention education, and sexual health risk behaviors among **North Dakota** high school students.

**North Dakota** health education laws and regulations were analyzed across three topics of instruction (sexual health education, HIV Prevention, and STD Prevention) and a variety of characteristics related to curriculum and instruction. These characteristics were identified by researchers as potential facilitators for successful programs. The law and regulation data presented only indicate the presence or absence of a particular component related to health education and may not accurately reflect practice within the state.

### North Dakota Law Facts

- The agency with authority to choose or approve curriculum for sexual health education instruction is not addressed.
- The option to either Opt-in or Opt-out of sexual health education instruction is not addressed.
- Instruction regarding contraception is not addressed.
- Abstinence is a required topic of instruction for sexual health education.
