1. This questionnaire focuses on your state’s policies and practices regarding food service.

2. When I use the word “policy,” I mean any law, rule, regulation, administrative order, or similar kind of mandate issued by the state board of education, state legislature, or other state agency with authority over schools in your state. I am most interested in what is required by the state, not what is recommended or contained in non-binding guidance documents, unless the question specifically asks about recommendations.

3. If a state policy is worded in such a way that it requires districts or schools to develop and adopt their own policies on a given topic, for the purpose of this questionnaire please consider it the same as a statewide requirement.

4. I recognize that the state may sometimes grant policy exceptions or waivers, but please answer each question based on what is considered the general policy and standard practice.

5. Please do not consider district or school practices or policies when answering the questions. We will ask about district and school practices and policies when we collect information from districts and schools across the country.
