Instructions: Please provide the ESTIMATED NUMBER of clients your organization intends to serve during **Year 1, if selected for funding**. Complete the data tables below illustrating your organization’s target population for **Year 1**, stratified by ethnicity, race, age group, HIV status, and risk. Complete the applicable sections within each table for each target population group.

NOTE: Do NOT use percentages when providing your client-level data. Please only use whole numbers.

Within each row, select the most appropriate descriptors for the primary and secondary target populations that will be served (e.g., Non-Hispanic, Black/African American, MSM/IDU, 13-19 years, HIV-negative). Additionally, in the column of the same row provide the total number of clients within **this target population** that your organization proposes to serve in Year 1.

Example: HIV Testing, targeting 200 Non-Hispanic, African American YMSM, with a risk of IDU, and of unknown HIV serostatus, between the ages of 18-24.
