

Asians With HIV

Not all Asians are getting the care they need. For every **100 Asians with HIV in 2016:**

59
received
some
HIV care

47
were
retained
in care

54
were virally
suppressed

For comparison, for every **100 people overall** with HIV,
64 received some HIV care, **49** were retained in care, and **53** were virally suppressed.
