

Blacks/African Americans With HIV

When compared to all people with HIV, Blacks/African Americans have lower viral suppression rates. For **every 100 Blacks/African Americans with HIV in 2018:***

For comparison, for every **100 people overall** with HIV, **86 received an HIV diagnosis**, **65 received some HIV care**, **50 were retained in care**, and **56 were virally suppressed**.

* Includes people with diagnosed or undiagnosed HIV.
