

# Maps Based on Data from 2015 HIV Surveillance Report

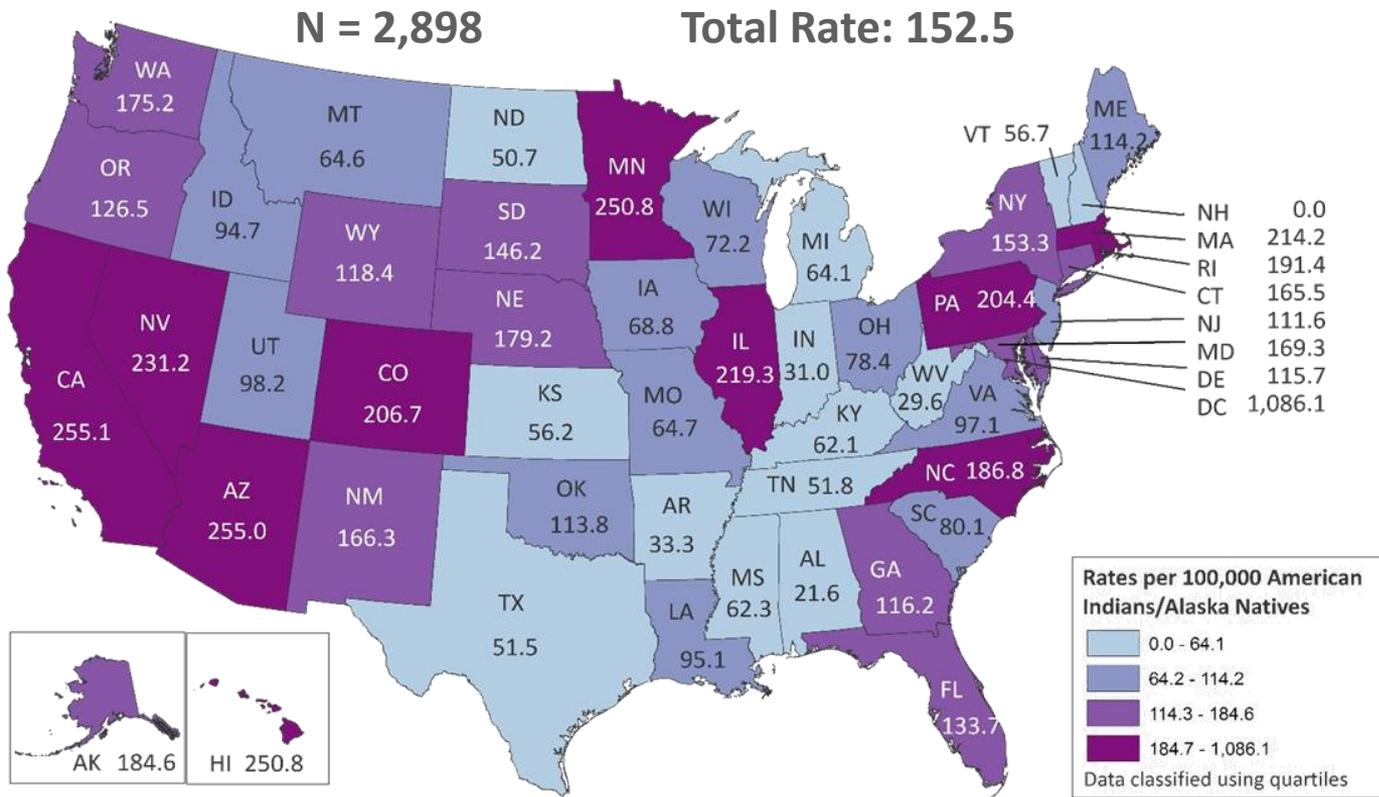

# Rates of Adults and Adolescents Living with Diagnosed HIV Infection, by Area of Residence, Year-end 2014 — United States and 6 Dependent Areas

N = 970,319

Total Rate: 360.0

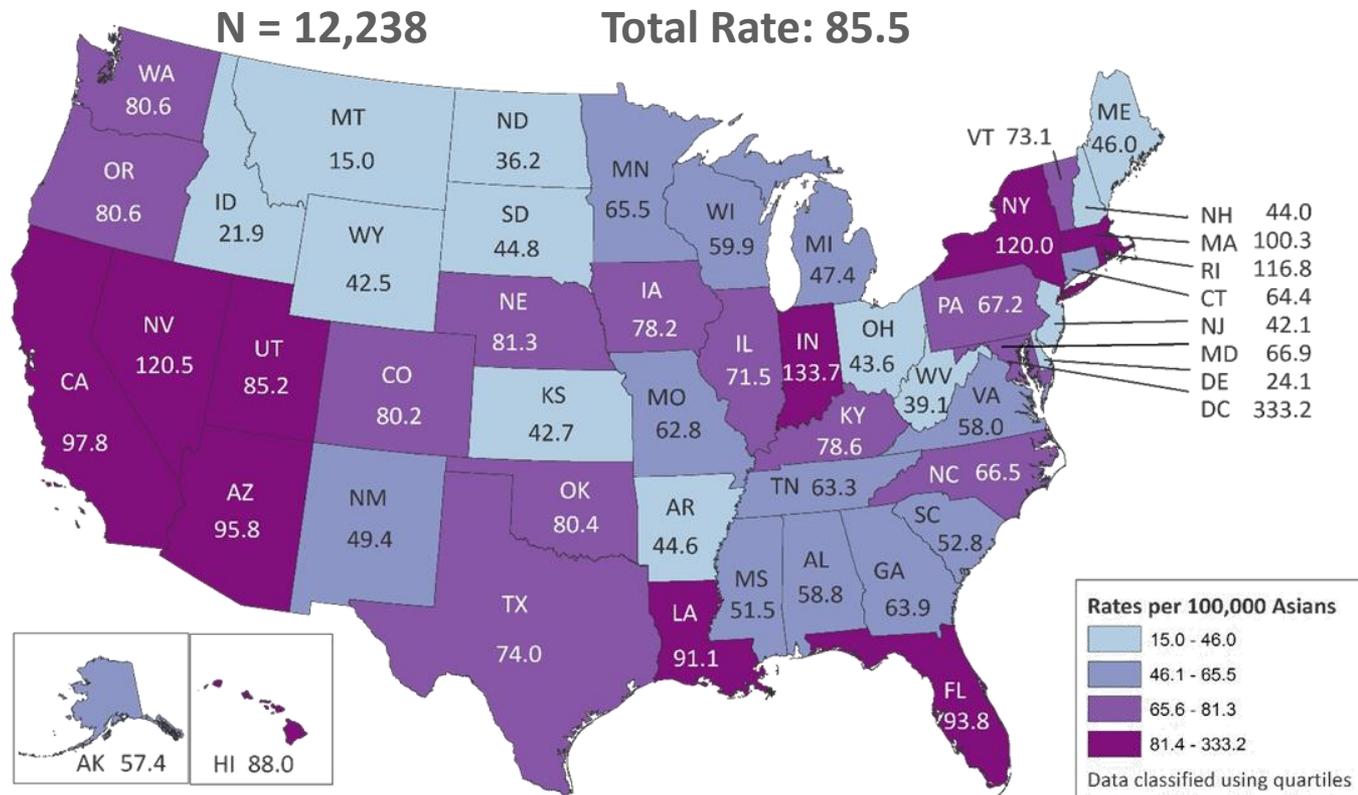

# Rates of American Indian/Alaska Native Adults and Adolescents Living with Diagnosed HIV Infection, by Area of Residence, Year-end 2014 — United States

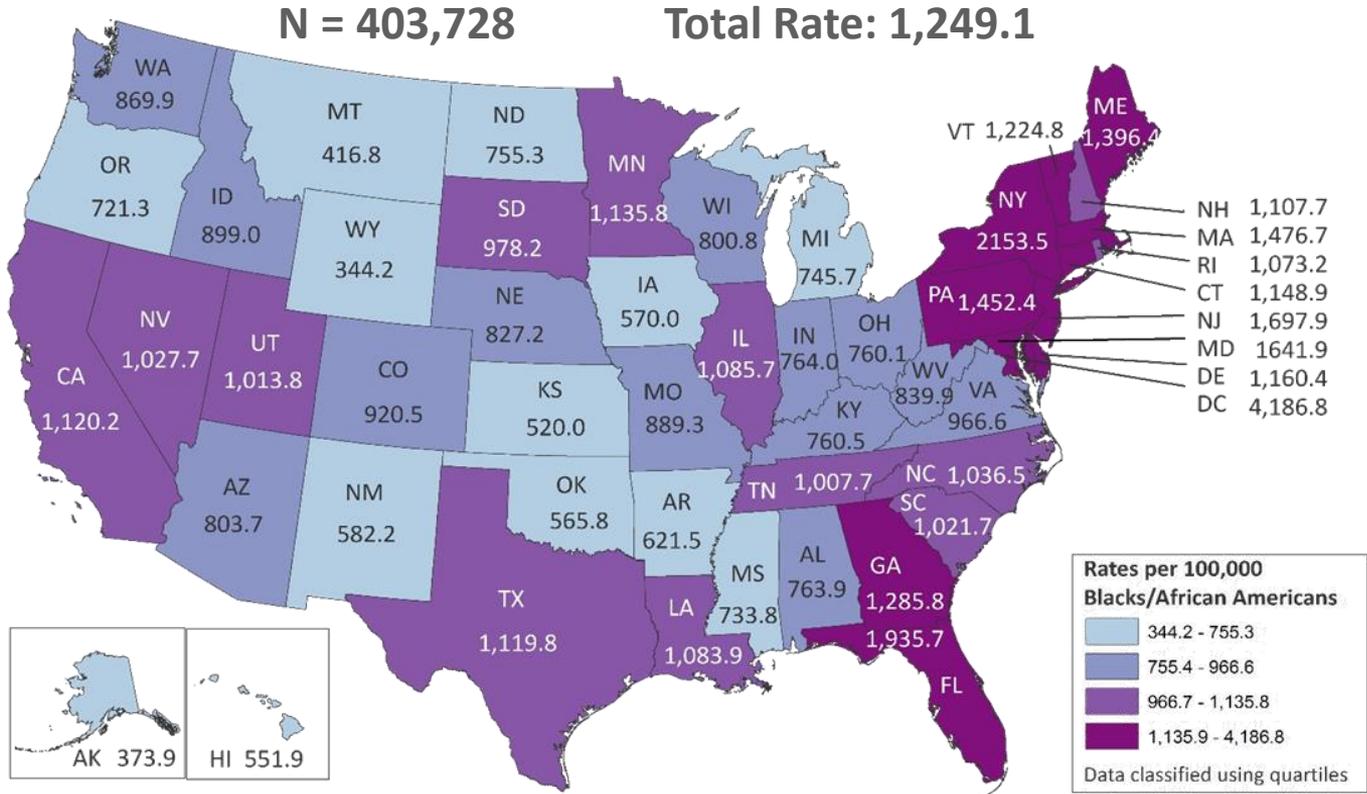

Note. Data include persons with a diagnosis of HIV infection regardless of stage of disease at diagnosis. Data are based on address of residence as of December 31, 2014 (i.e., most recent known address).

# Rates of Asian Adults and Adolescents Living with Diagnosed HIV Infection, by Area of Residence, Year-end 2014 — United States

*Note.* Data include persons with a diagnosis of HIV infection regardless of stage of disease at diagnosis. Data are based on address of residence as of December 31, 2014 (i.e., most recent known address). The Asian category includes Asian/Pacific Islander legacy cases.

# Rates of Black/African American Adults and Adolescents Living with Diagnosed HIV Infection, by Area of Residence, Year-end 2014 — United States

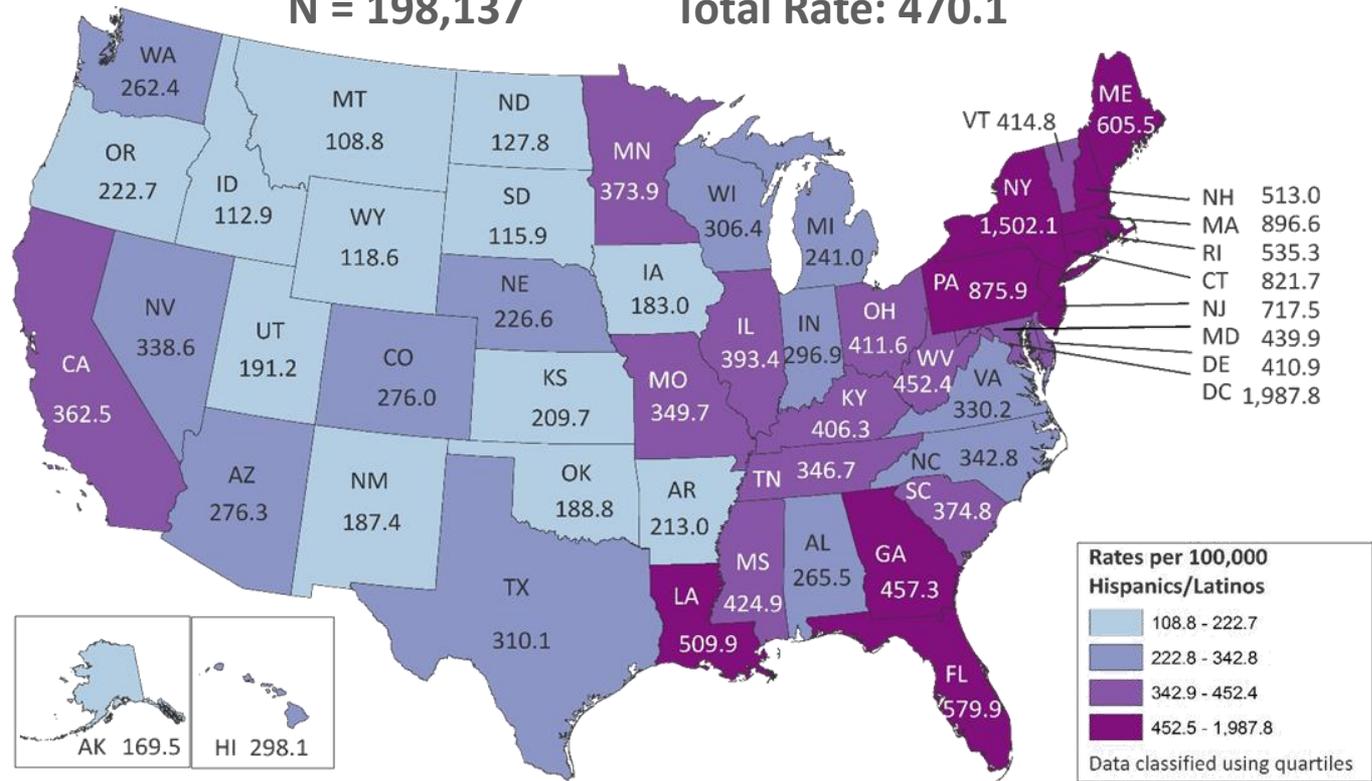

Note. Data include persons with a diagnosis of HIV infection regardless of stage of disease at diagnosis. Data are based on address of residence as of December 31, 2014 (i.e., most recent known address).

# Rates of Hispanic/Latino Adults and Adolescents Living with Diagnosed HIV Infection, by Area of Residence, Year-end 2014 — United States

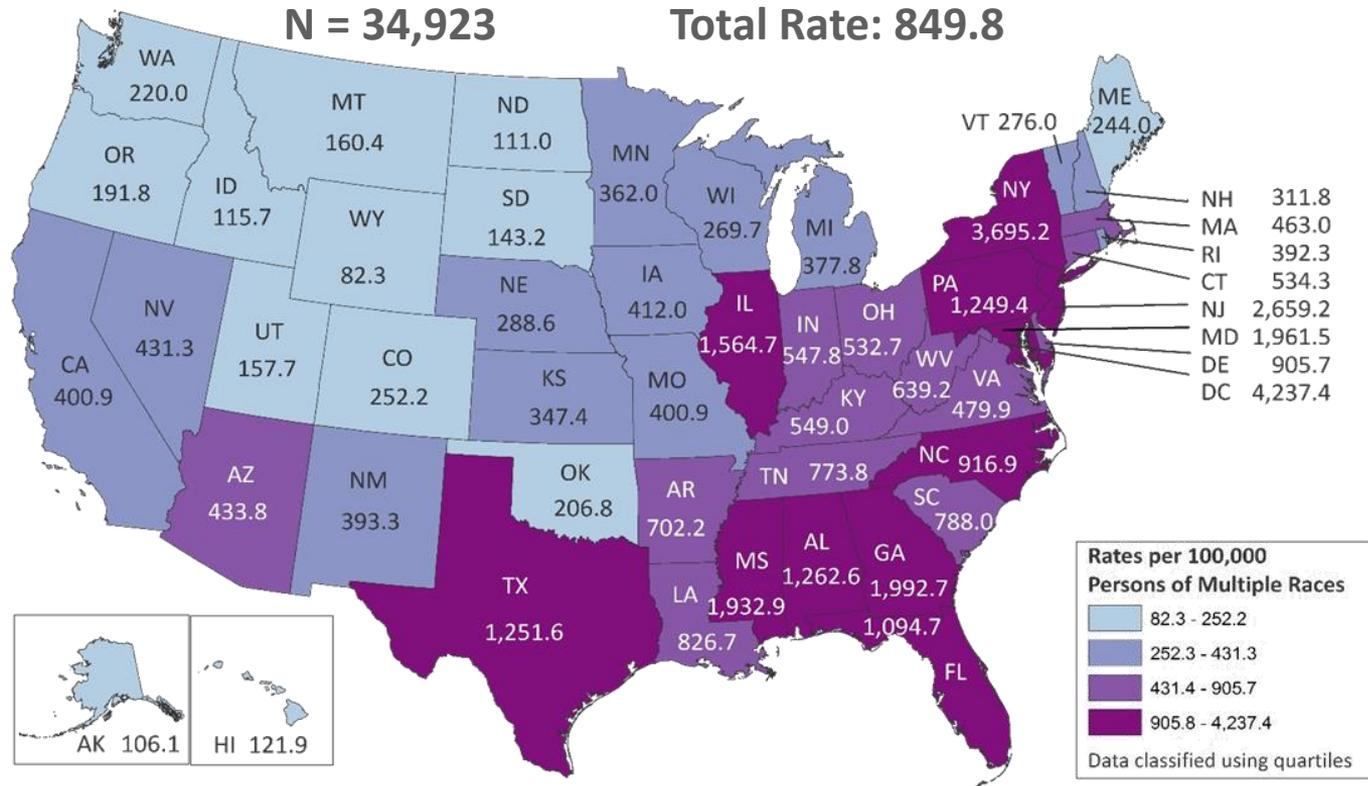

N = 198,137      Total Rate: 470.1

Note. Data include persons with a diagnosis of HIV infection regardless of stage of disease at diagnosis. Data are based on address of residence as of December 31, 2014 (i.e., most recent known address). Hispanics/Latinos can be of any race.

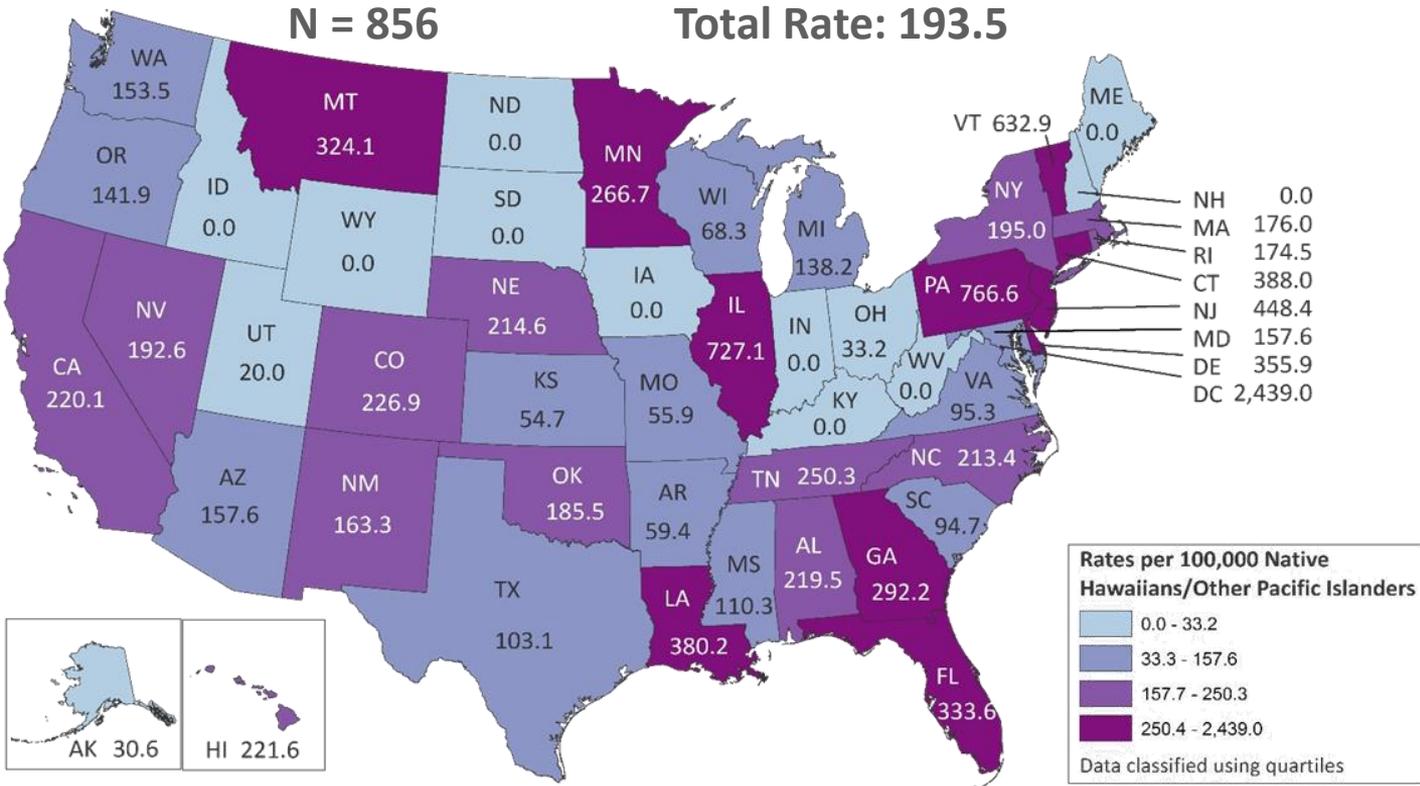

# Rates of Adults and Adolescents of Multiple Races Living with Diagnosed HIV Infection, by Area of Residence, Year-end 2014 — United States

Note. Data include persons with a diagnosis of HIV infection regardless of stage of disease at diagnosis. Data are based on address of residence as of December 31, 2014 (i.e., most recent known address).

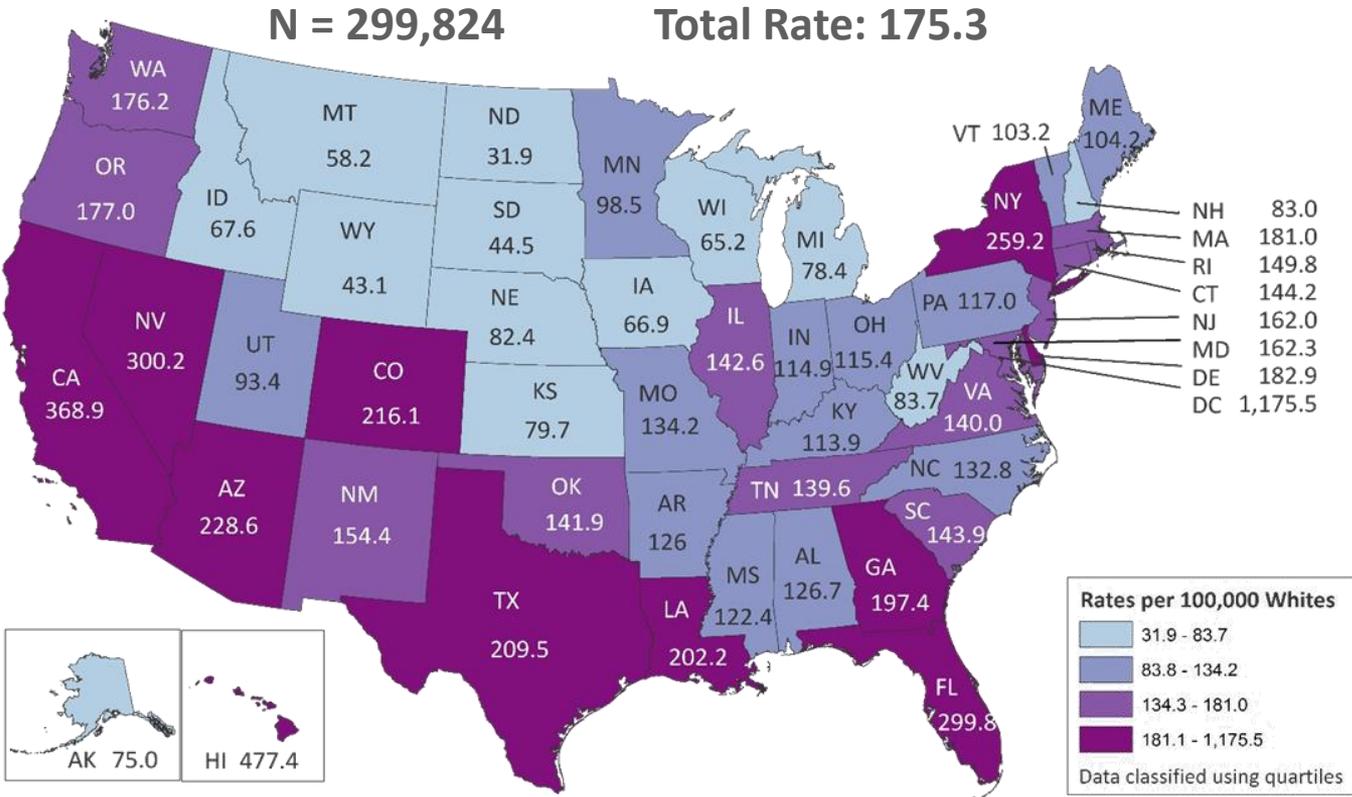

# Rates of Native Hawaiian/Other Pacific Islander Adults and Adolescents Living with Diagnosed HIV Infection, by Area of Residence, Year-end 2014 — United States

Note. Data include persons with a diagnosis of HIV infection regardless of stage of disease at diagnosis. Data are based on address of residence as of December 31, 2014 (i.e., most recent known address).

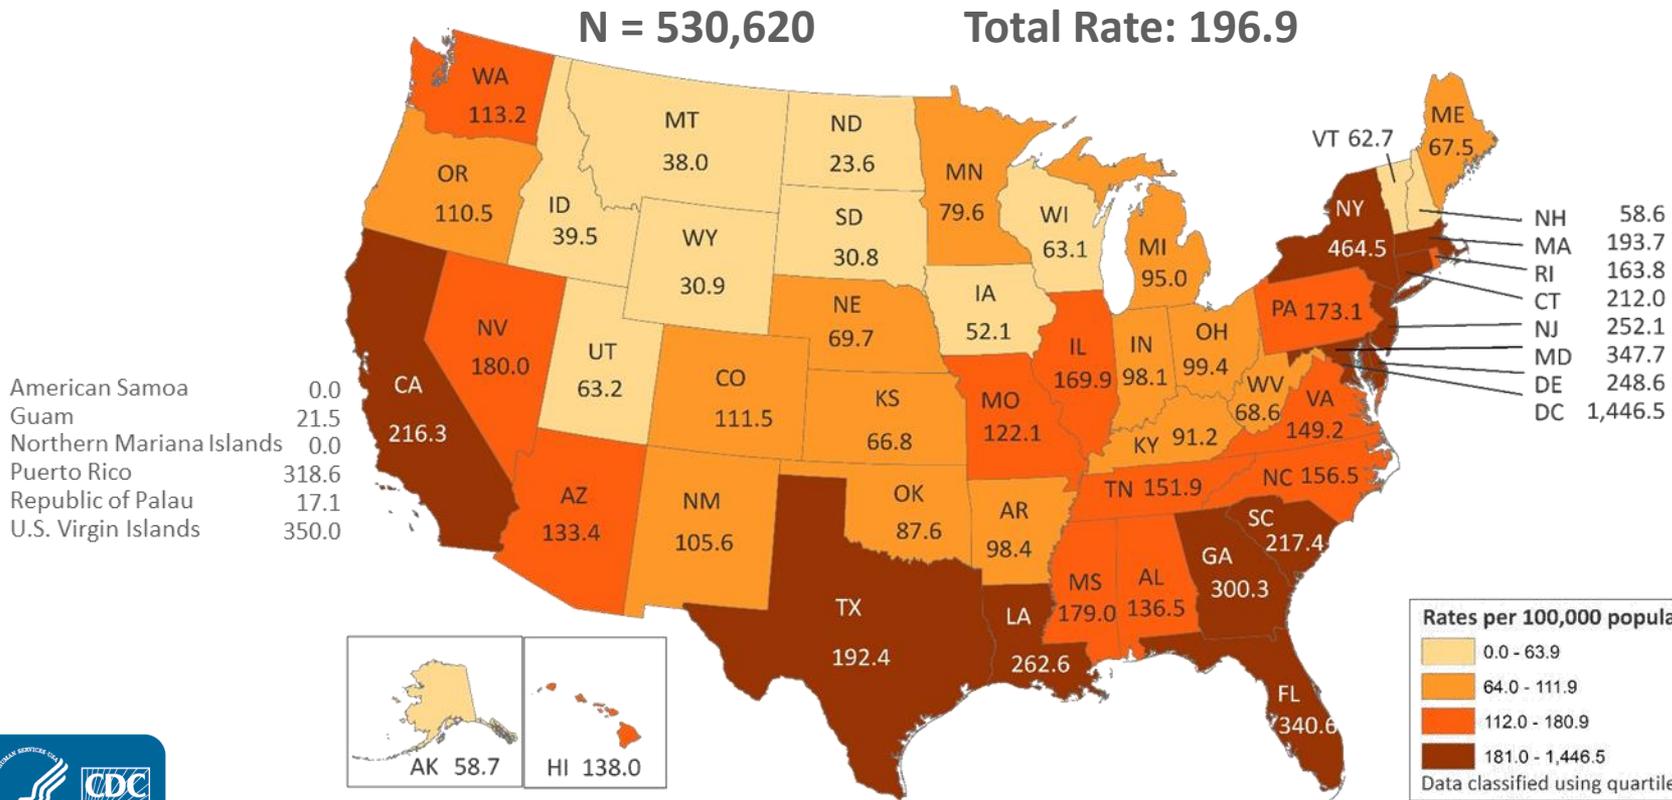

# Rates of White Adults and Adolescents Living with Diagnosed HIV Infection, by Area of Residence, Year-end 2014 — United States

Note. Data include persons with a diagnosis of HIV infection regardless of stage of disease at diagnosis. Data are based on address of residence as of December 31, 2014 (i.e., most recent known address).

# Rates of Adults and Adolescents Living with Diagnosed HIV Infection Ever Classified as Stage 3 (AIDS), by Area of Residence, Year-end 2014 — United States and 6 Dependent Areas

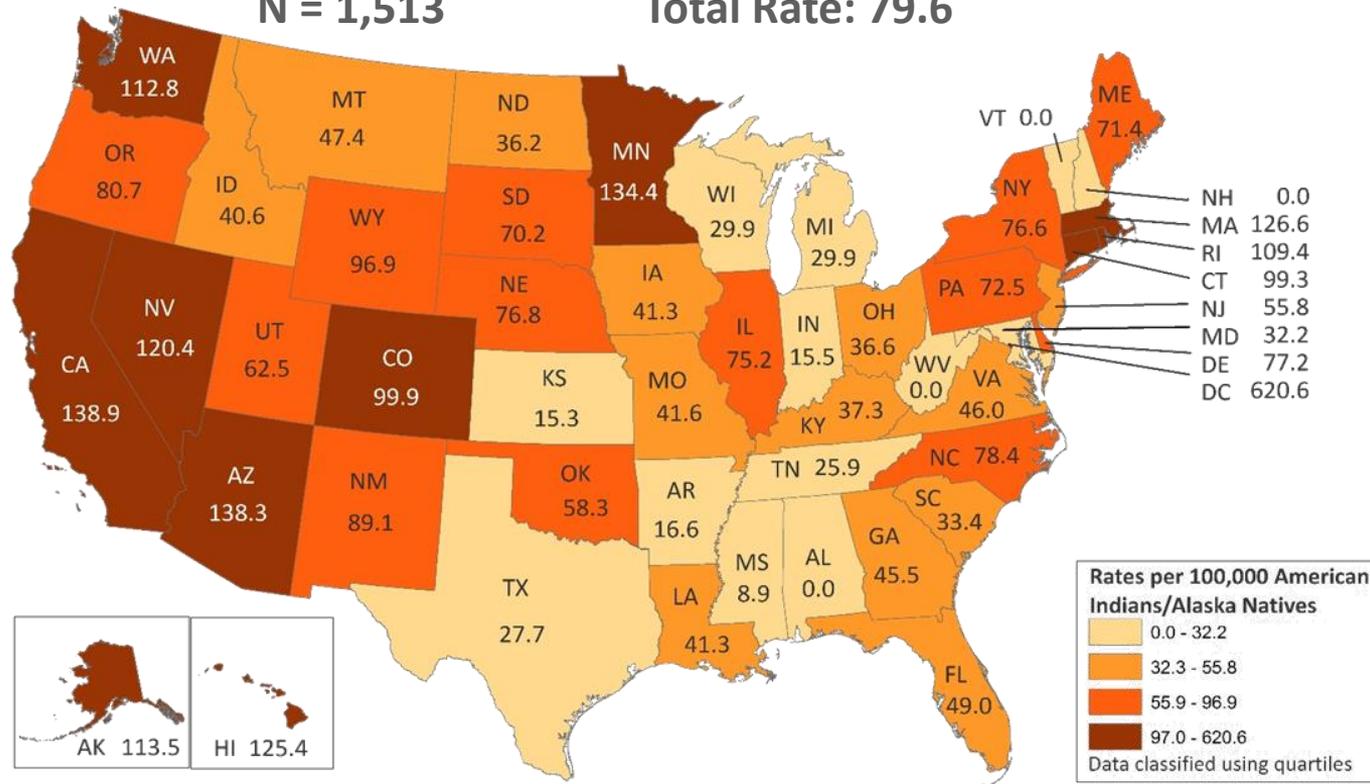

Note. Data are based on address of residence as of December 31, 2014 (i.e., most recent known address).

# Rates of American Indian/Alaska Native Adults and Adolescents Living with Diagnosed HIV Infection Ever Classified as Stage 3 (AIDS), by Area of Residence, Year-end 2014 — United States

N = 1,513

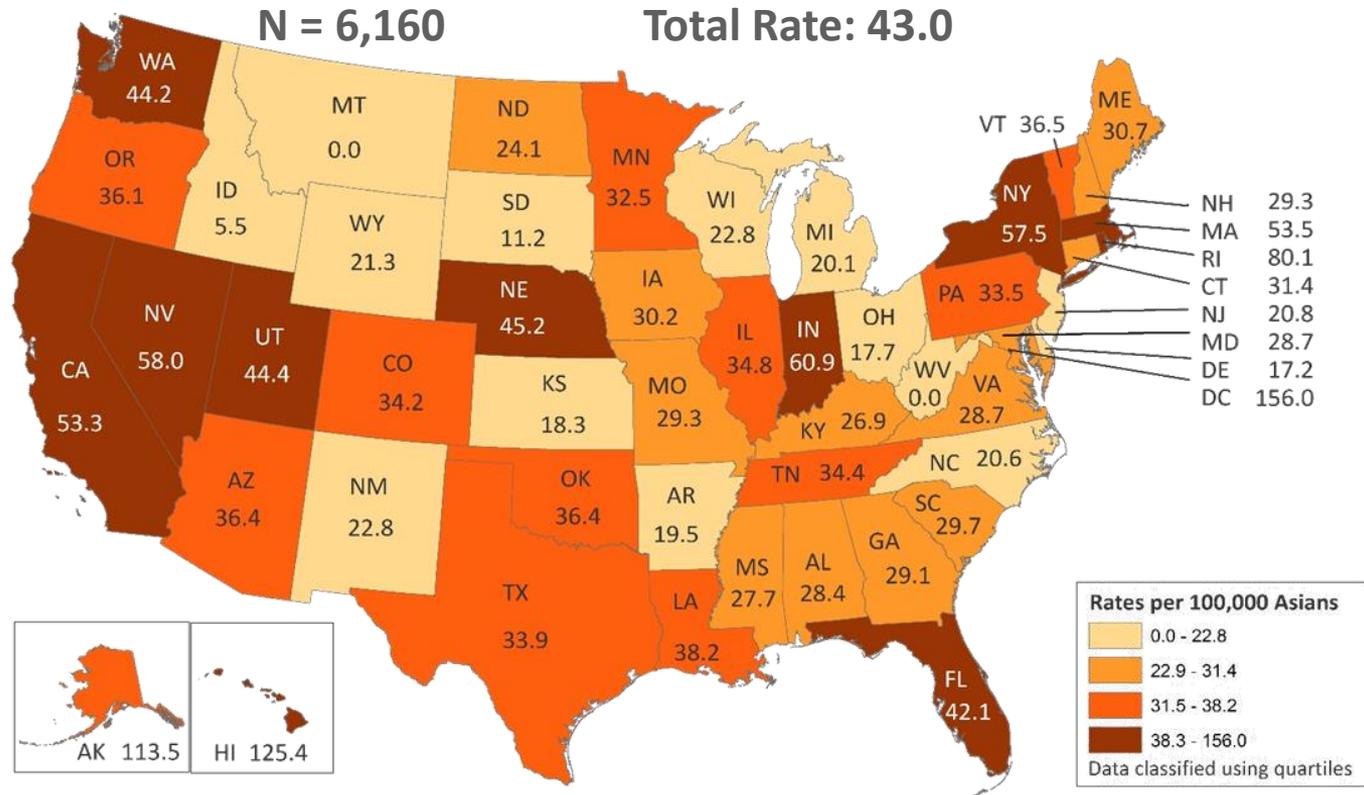

Total Rate: 79.6

Note. Data are based on address of residence as of December 31, 2014 (i.e., most recent known address).

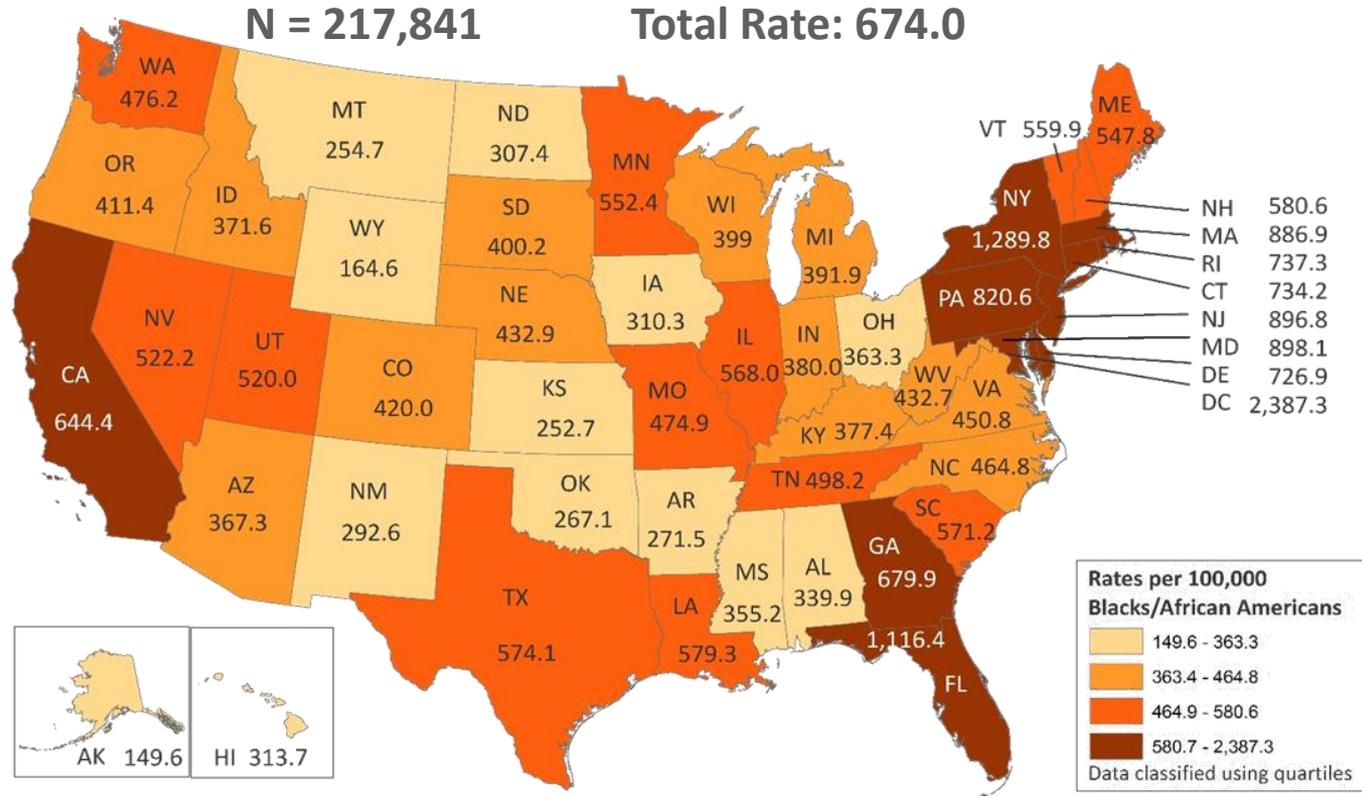

# Rates of Asian Adults and Adolescents Living with Diagnosed HIV Infection Ever Classified as Stage 3 (AIDS), by Area of Residence, Year-end 2014 — United States

Note. Data are based on address of residence as of December 31, 2014 (i.e., most recent known address).  
The Asian category includes Asian/Pacific Islander legacy cases.

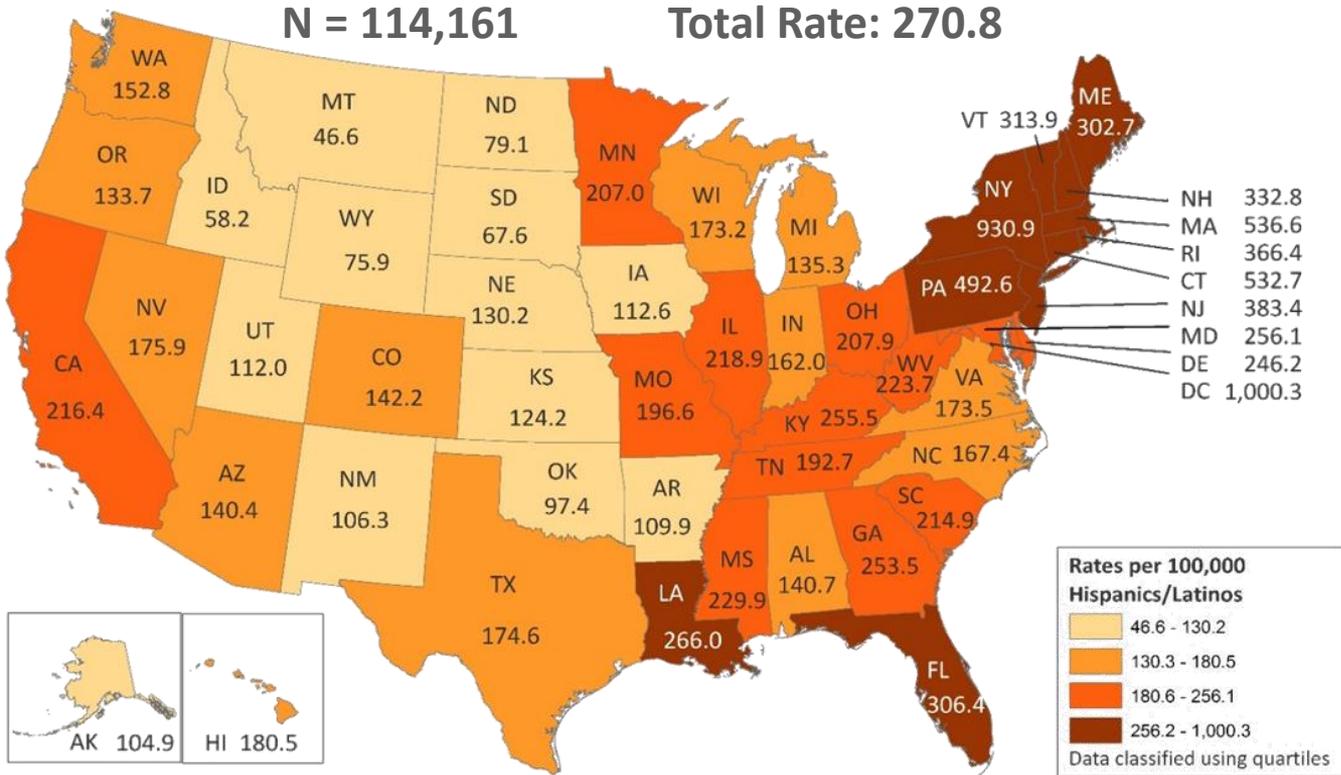

# Rates of Black/African American Adults and Adolescents Living with Diagnosed HIV Infection Ever Classified as Stage 3 (AIDS), by Area of Residence, Year-end 2014 — United States

Note. Data are based on address of residence as of December 31, 2014 (i.e., most recent known address).

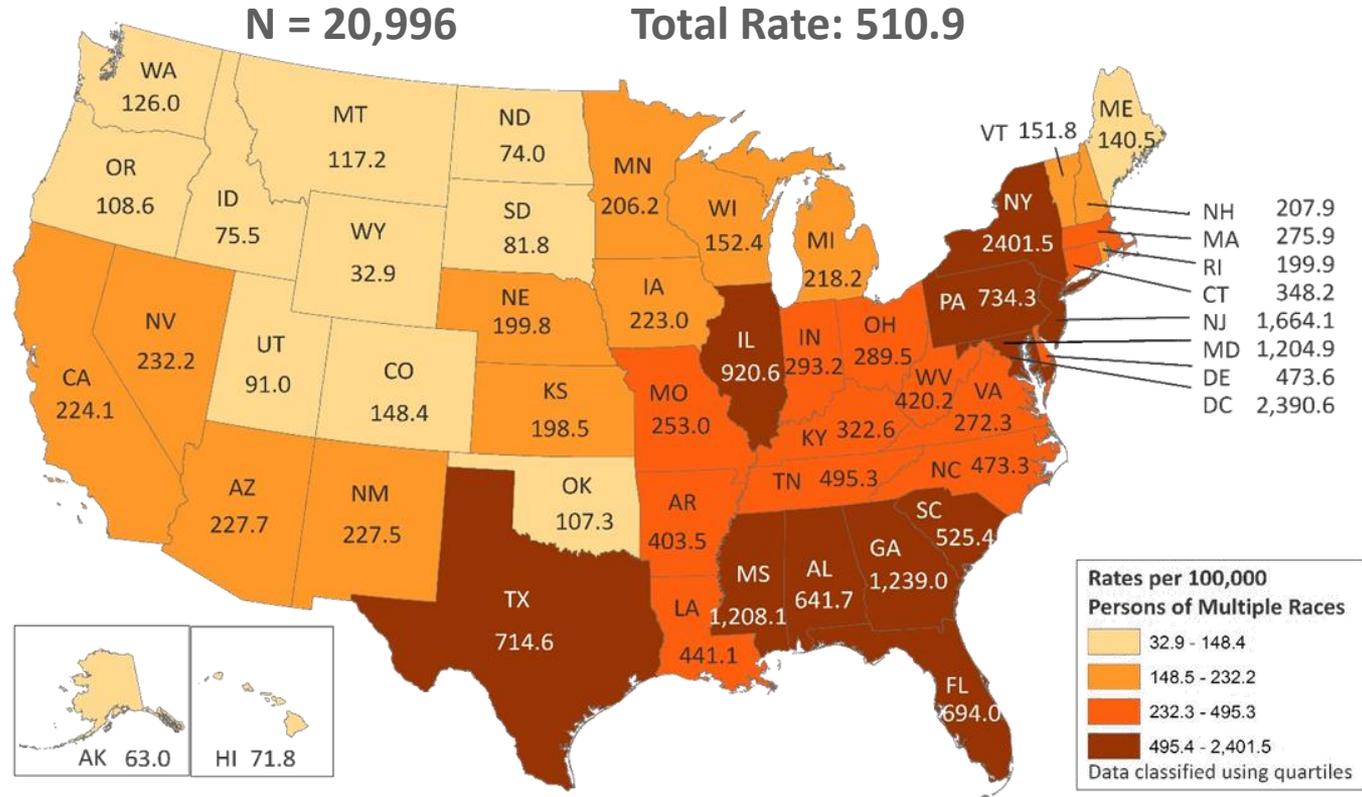

# Rates of Hispanic/Latino Adults and Adolescents Living with Diagnosed HIV Infection Ever Classified as Stage 3 (AIDS), by Area of Residence, Year-end 2014 — United States

Note. Data are based on address of residence as of December 31, 2014 (i.e., most recent known address).  
Hispanics/Latinos can be of any race.

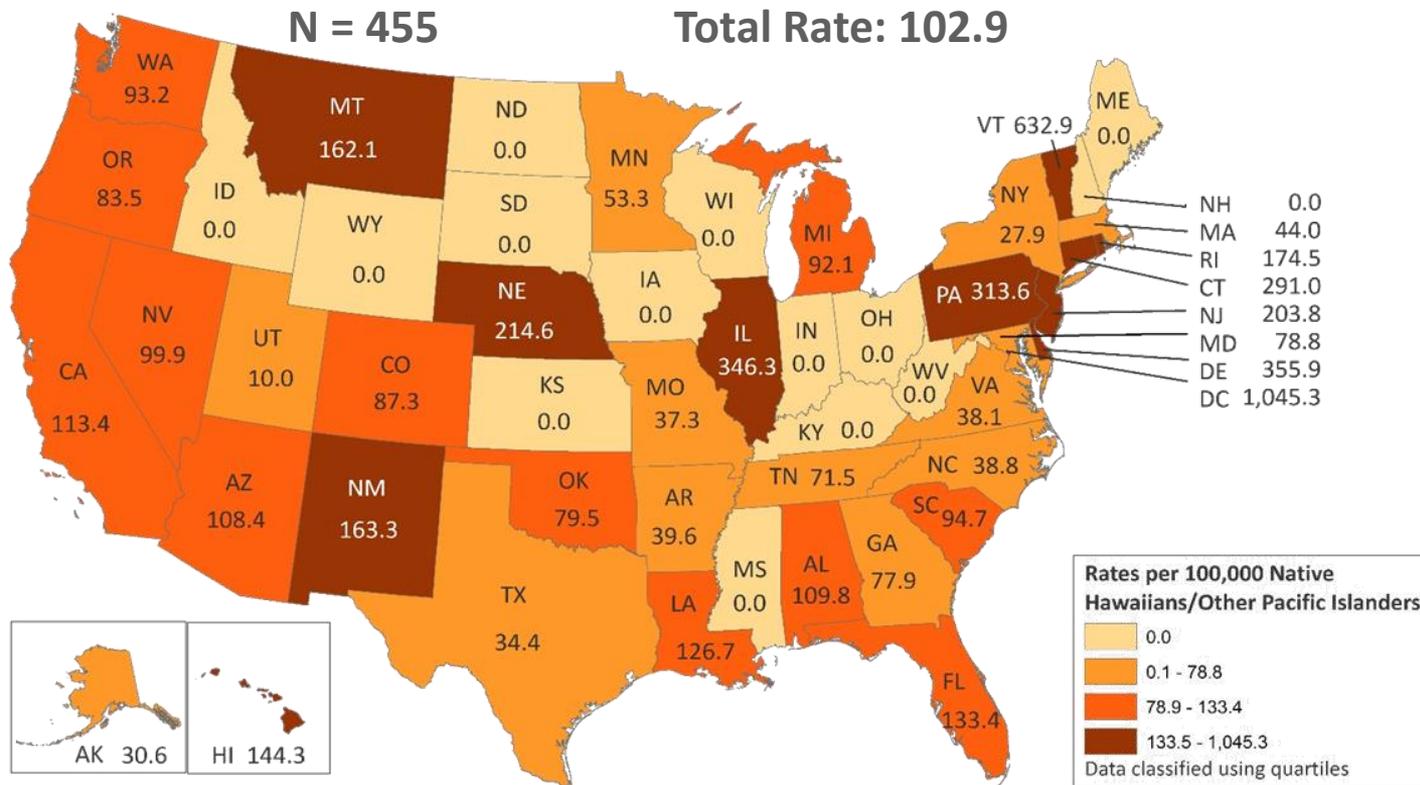

# Rates of Adults and Adolescent Persons of Multiple Races Living with Diagnosed HIV Infection Ever Classified as Stage 3 (AIDS), by Area of Residence, Year-end 2014 — United States

Note. Data are based on address of residence as of December 31, 2014 (i.e., most recent known address).

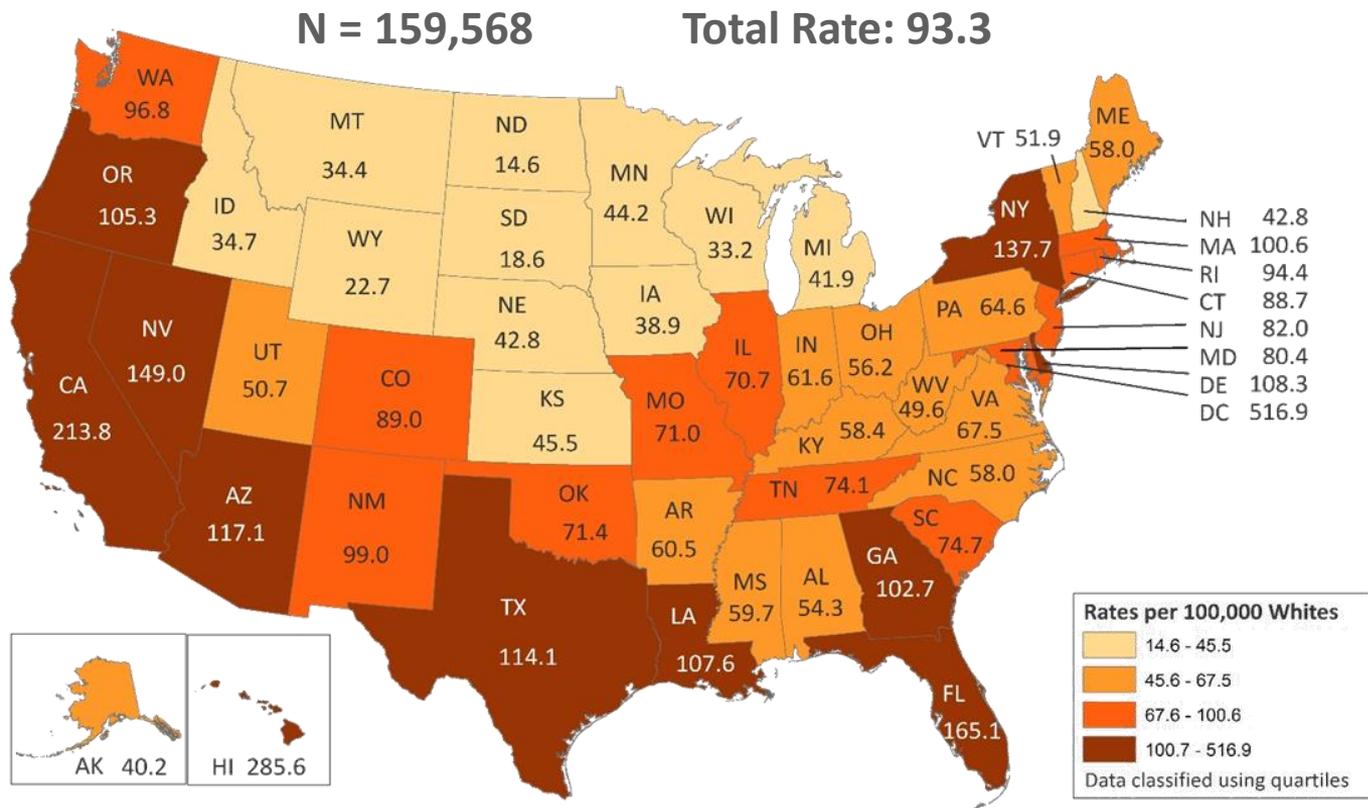

# Rates of Native Hawaiian/Other Pacific Islander Adults and Adolescents Living with Diagnosed HIV Infection Ever Classified as Stage 3 (AIDS), by Area of Residence, Year-end 2014 — United States

Note. Data are based on address of residence as of December 31, 2014 (i.e., most recent known address).

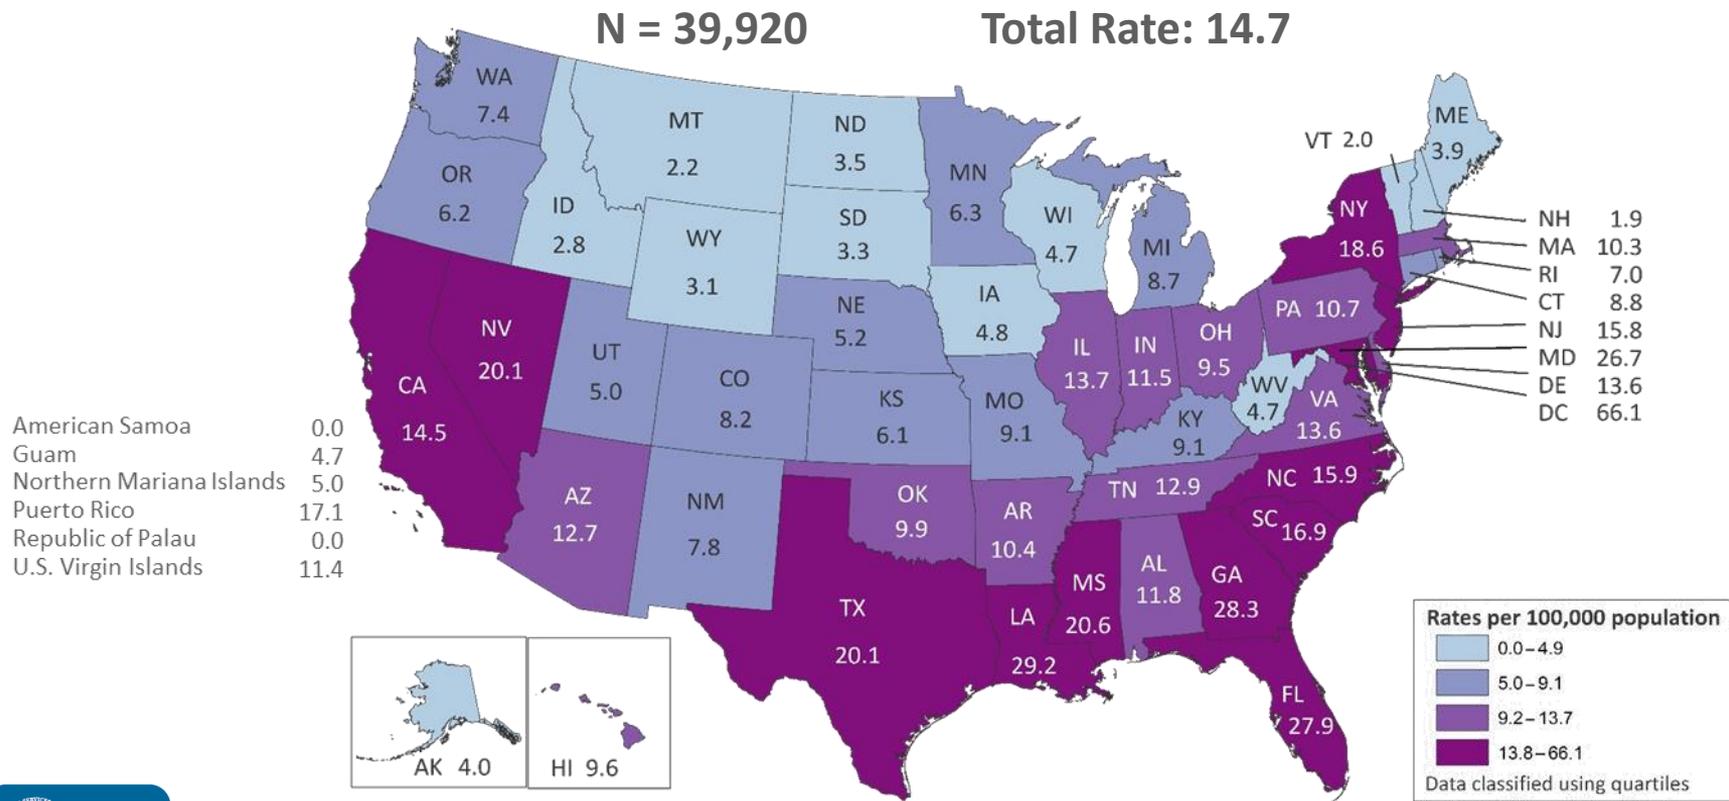

# Rates of White Adults and Adolescents Living with Diagnosed HIV Infection Ever Classified as Stage 3 (AIDS), by Area of Residence, Year-end 2014 — United States

Note. Data are based on address of residence as of December 31, 2014 (i.e., most recent known address).

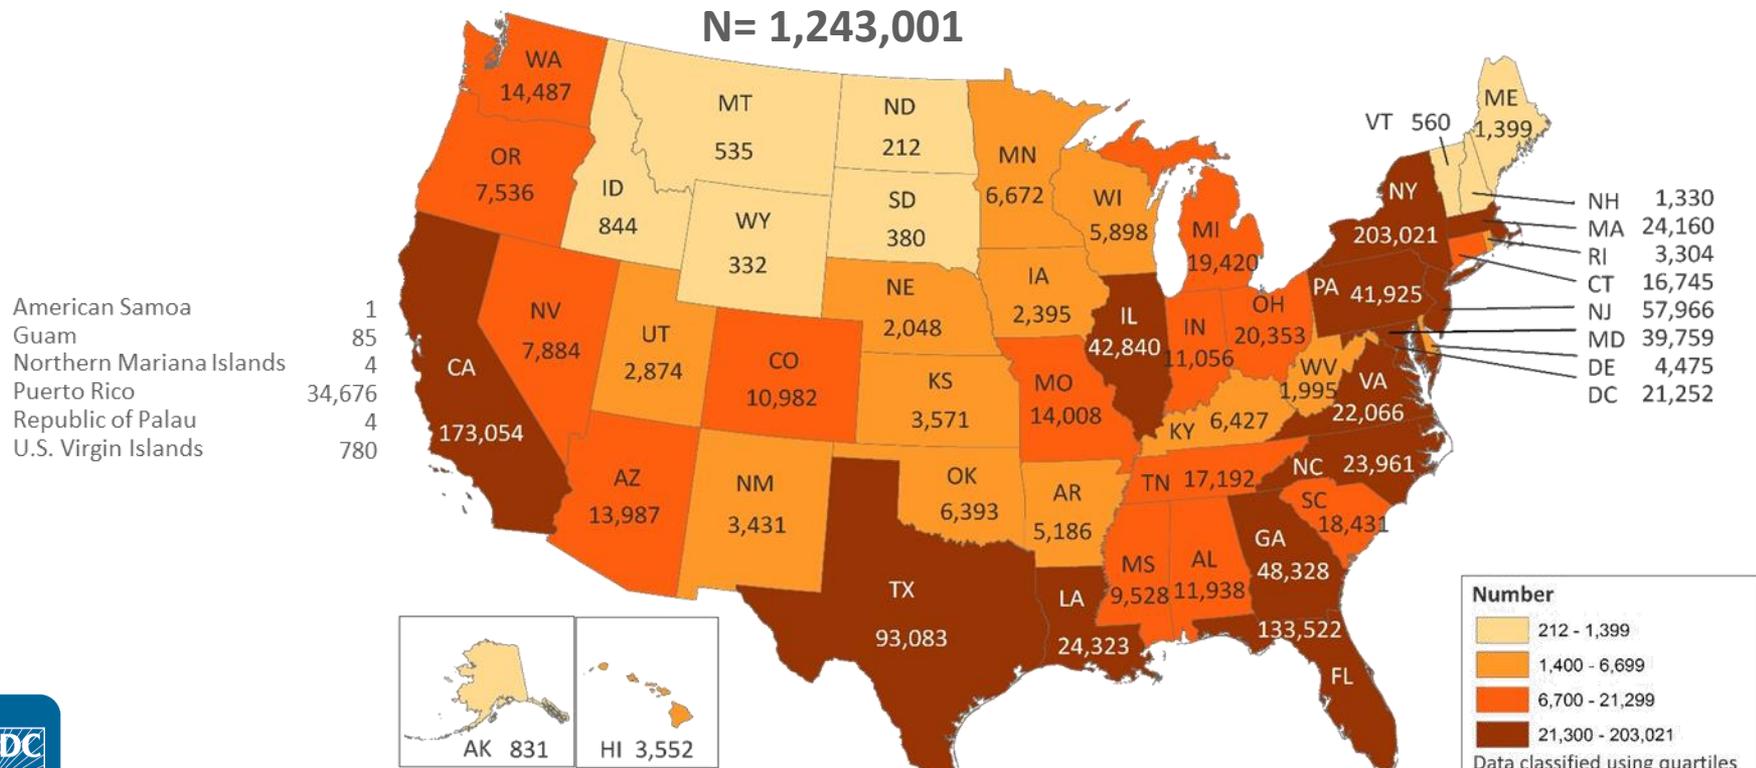

# Rates of Diagnoses of HIV Infection among Adults and Adolescents, by Area of Residence, 2015 — United States and 6 Dependent Areas

# Stage 3 (AIDS) Classifications among Adults and Adolescents with HIV Infection, by Area of Residence, Cumulative through 2015 — United States and 6 Dependent Areas

N= 1,243,001

Note. Data for the year 2015 are preliminary and based on 6 months reporting delay.
