Act Against AIDS Launches First Disease-Specific CDC Instagram Account

The *Act Against AIDS* (AAA) campaign has launched a [new Instagram account!](#)

Instagram is a social networking site that allows people to connect through pictures and videos. Users can snap a photo (or shoot a video) with a mobile phone, choose a filter to transform the image, and share it with followers. Users can also share their Instagram posts on Flickr, Facebook, and Twitter.

The AAA Instagram account will share photos and videos that show what AAA is doing to combat HIV and that highlight the people involved.

Follow AAA on Instagram in four easy steps:

1. **Install the Instagram app on your mobile device** (if you don't already have it). You can download the free app from your device's app store.
2. **Create an Instagram account, or log in if you already have one.** You can also log in using your Facebook account.
3. **Search for the AAA Instagram account.** Open the app, tap the magnifying glass icon, and type "actagainstaids" in the search bar. Then tap on the AAA account icon in the search results.
4. **Tap the "+ FOLLOW" button on the AAA page to follow the campaign Instagram feed.** The campaign's Instagram activity will show up in your main Instagram feed.

AAA's Instagram page joins its suite of social media accounts, including [Act Against AIDS on Facebook](#) and [@talkHIV on Twitter](#).
