

Recommendations for Providers Counseling Male Patients and Parents Regarding Elective Male Circumcision and the Prevention of HIV Infection, STIs, and Other Health Outcomes

CDC has posted the draft *“Recommendations for Providers Counseling Male Patients and Parents Regarding Elective Male Circumcision and the Prevention of HIV Infection, STIs, and Other Health Outcomes”* for a 45-day public comment period beginning December 2, 2014. The draft recommendations are located on www.regulations.gov, Docket CDC-2014-0012. For those interested in more information on the scientific evidence regarding HIV, STIs and male circumcision, a companion document, *“Background, Methods, and Synthesis of Scientific Information Used to Inform the “Recommendations for Providers Counseling Male Patients and Parents Regarding Male Circumcision and the Prevention of HIV infection, STIs, and other Health Outcomes,”* will also be published on www.regulations.gov.
