CDC awarded **$11.11M** to health departments and community-based organizations in Michigan for HIV prevention and care activities, including **$2.11M** in *Ending the HIV Epidemic (EHE)* funding.

CDC collects and disseminates data on **6 key EHE indicators**. Current data are available online at [AtlasPlus](https://atlasplus.cdc.gov) and on [HHS AHEAD](https://www.hhs.gov/data) for each jurisdiction.

**Michiganians** with HIV will face an average lifetime cost of **$510,000** to treat their infection (2020 dollars).

**DIAGNOSE:** Diagnose all people with HIV as early as possible

- **16%** of Michiganians with HIV are unaware of their status, which means they aren’t getting the HIV care they need.
- **630** new HIV infections occurred in Michigan.
- **47,346** HIV tests were provided in Michigan with CDC funding.

**HIV testing enables people to know their HIV status.**

**How CDC Dollars Can Improve DIAGNOSES:**

- **Expand** routine screening of people in health care settings
- **Increase** testing in non-traditional settings (e.g., jails, emergency departments, street-based services)
- **Increase** access to and use of HIV self-tests
- **Integrate** STI and viral hepatitis screening into HIV testing services
CDC offers technical assistance and HIV prevention trainings to build workforce capacity.

Nationally, learners from 216 unique organizations completed 565 HIV prevention courses with the most requested content area being increasing awareness of, access to, and adherence to PrEP.
