

Hairstylists and Barbers Against AIDS

**STOPPING AIDS IS
EVERYONE'S BUSINESS**

More than 1.2 million people in the United States are living with HIV. Yet... Many of them don't even know it.

Join CDC in a national movement to save lives through HIV awareness and prevention.

Through the *Cut for Life* initiative for hairstylists and barbers, you can:

- Help save lives: HIV is 100% preventable
- Protect your clients, staff and business
- Show your community that you care
- Connect with other stylists and barbers in creating healthier communities

Find an HIV/STD test site near you by visiting <http://www.cdc.gov/BRTA> or texting your ZIP code to “KNOW IT” (566948).
