

CDC Immunization Information Systems (IIS) Vaccine Code Set Release Notes

Vaccine Code Set Update Publication Date: August 7, 2026

The individual filenames included in this distribution contain the publication date (20260807)

Release Notes: Release notes provide a technical summary of the updates made to vaccine code sets and crosswalks. This code set release includes updates for all regular vaccine-related codes. It does not include updates to codes for Vaccine Information Statements (VIS).

General Note Regarding This Release: Codes with “Last Update” dates from August 01, 2026 and before August 07, 2026, reflect the changes and additions in this release.

This release is a partial vaccine code set release to include updates to the NDC Codes and Crosswalk found on the following pages:

- <https://www2.cdc.gov/vaccines/iis/iisstandards/vaccines.asp?rpt=ndc>
- https://www2.cdc.gov/vaccines/iis/iisstandards/ndc_tableaccess.asp

Note: Due to temporary technical issues, the updates in this release are not available at the publication date for access via the Runtime REST Web Services or the Viewpoint Browser access methods. As the technical issue is addressed, these additional access methods will be updated.

The prior vaccine code set update of August 3, 2026, included update of codes for all the vaccine code set pages and access methods.

The release includes vaccine code set updates related to the following:

- 1. New NDC Codes Added (FluMist)**
- 2. NDC Codes Retired**

Detailed technical Release Notes are provided upon the publication of a vaccine code set. You may find the date of the most recent code set publication and a downloadable PDF version of the Release Notes on the page found here: <https://www.cdc.gov/iis/code-sets/index.html>.

You may subscribe to receive future email vaccine code set updates via the sign up at the bottom of the webpage (<https://www.cdc.gov/iis/code-sets/index.html>).

Vaccine Code Set Updates – Details

You can find and download the 2026/2027 Seasonal Influenza Codes and Crosswalk table here.

<https://www.cdc.gov/iis/code-sets/fall-season-respiratory-codes.html#heading-j4husaty48>.

1. New NDC Codes Added (FluMist)

The following NDCs have been added for the Fall 2026/Spring 2027 Northern Hemisphere influenza season. The vaccines for this upcoming season are again trivalent, and are mapped to the same CVX, MVX, and CPT codes utilized in the past Fall 2025/Spring 2026 Northern Hemisphere influenza season.

Sale Proprietary Name	Sale Labeler	Sale NDC11	Sale NDC10	SalePackForm / UseUnitPack Form	Use NDC11	Use NDC10	CVX Code	MVX Code	CPT
FluMist trivalent	MedImmune, Inc. (**)	66019-0113-10	66019-113-10	CARTON OF 10 APPLICATOR, 0.2 mL	66019-0113-00	66019-113-00	111	MED	90660
FluMist trivalent, (self/caregiver administered)	MedImmune, Inc. (**)	66019-0113-51	66019-113-51	CARTON OF 1 APPLICATOR, 0.2 mL	66019-0113-51	66019-113-51 (*)	333	MED (**)	NA (*)

(*) In the Vaccine Code Set the Unit of Use (UoU) for FluMist self or caregiver administered vaccine is listed with the same NDC code as the Unit of Sale (UoS) NDC. This allows mapping to a different CVX code for self or caregiver administered FluMist vaccine. A CPT code is not applicable for the self or caregiver NDC billing.

(**) In the Vaccine Code Set, the MVX Code for a vaccine is the manufacturer that is approved under the FDA Biologics License Application (BLA) for that product. The MVX Code, CVX code and product NDC codes are used to record and report a vaccine administration. In some cases, the BLA-listed manufacturer is a subsidiary or manufacturing partner of another entity that contracts with the CDC. The CDC Price Lists show the CDC-contracted manufacturer and this is used for ordering vaccine product from CDC and for managing that inventory. For these reasons, the BLA-listed manufacturer MVX code shown in the Vaccine Code Sets and the CDC-contracted manufacturer shown on the CDC Vaccine Price Lists may sometimes differ. The CDC Price Lists show the CDC-contracted manufacturer of FluMist as AstraZeneca.
