Secondary Review Teleconference

CLOSED TO THE PUBLIC

Summary Proceedings

The twentieth meeting of the Centers for Disease Control and Prevention (CDC) National Center for Injury Prevention and Control (NCIPC) Board of Scientific Counselors (BSC) took place via teleconference on Monday, August 1, 2016. The BSC met in closed session for secondary review in accordance with the Privacy Act and the Federal Advisory Committee Act (FACA). Dr. Stephen Hargarten served as chair.

This meeting was closed to the public in accordance with the determination that it was concerned with matters exempt from mandatory disclosure under Sections 552b© and 552b©(6), title 5, U.S. Code and Section 10(d) of the Federal Advisory committee Act, as amended (5U.S.C. Appendix 2). The Scientific Review Officer explained policies and procedures regarding avoidance of conflict of interest situations; voting and priority rating; and confidentiality of applications in which there was a potential conflict of interest, real or apparent.

Upon establishing a quorum, a secondary review was conducted for the following NCIPC Funding Opportunity Announcements (FOAs):

- ❑ RFA CE-16-005: Evaluation of Practice-based Strategies from CDC's Rape Prevention and Education (RPE) Program to Build Evidence for Primary Prevention of Sexual Violence. The SEP for conducting the primary peer review of applications to this FOA was held on June 24, 2016.

- ❑ FOA PA-15-269, Public Health Service (PHS) 2014-02 Omnibus Solicitation of the NIH, CDC, US Food and Drug Administration (FDA), and Agency for Children and Families (ACF) for Small Business Innovation Research Grant Applications (Parent SBIR [R43/R44]). The parent SBIR announcement was for both Phase I and Phase II applications. The NIH Scientific Review Group for applications under consideration for SBIRs convened on March 10 and 11, 2016.

In closing Dr. Hargarten thanked BSC members for their participation. With no further business to discuss, the meeting was adjourned at 2:23 p.m.
