

Applications of Telemedicine in Diagnostic Parasitology

OCTOBER 7, 2015 • 1:00-2:00PM EDT • ATLANTA, GA

Henry S. Bishop
Microbiologist
Parasitic Disease Branch,
Division of Parasitic Diseases
and Malaria, Center for
Global Health, CDC

In recent years, by the use of a digital camera attached to a microscope, slide images can be captured and shared with other parasitologists for consultation. Now, streaming technology can allow “real-time” reviewing of microscope slides for both consulting and training. This basic level webinar will demonstrate use of “real-time” digital microscopy by presenting three unique cases of parasitic diseases.

Sponsored by the National Laboratory Training Network (NLTN)

The National Laboratory Training Network is a Training System Sponsored by the Association of Public Health Laboratories (APHL) and The Centers for Disease Control and Prevention (CDC) www.aphl.org/training/nltn

Funding for this training was made possible (in part) by the Centers for Disease Control and Prevention. The views expressed in written training materials or publications and by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services, nor does the mention of trade names, commercial practices, or organizations imply endorsement by the U.S. Government. This project is funded 100% by Federal funds.

FREE WEBINAR

REGISTRATION DEADLINE IS SEPTEMBER 30, 2015

- Locate the course online under Live Webinars at www.cdc.gov/labtraining.
- Follow the link to register for the course in TRAIN.
- Registration deadline is one week prior to the webinar.
- Once you have registered, you will receive a detailed confirmation letter by email.
- This webinar will be archived on TRAIN approximately 3 weeks after each live event.
- Each webinar has 1000 seats available on a first come first served basis.
- If you have difficulty with the online registration process, please email labtraining@cdc.gov.

CEUs:

The Centers for Disease Control and Prevention, Laboratory Training and Services Branch, is approved as a provider of continuing education programs in the clinical laboratory sciences by the ASCLS P.A.C.E.® Program.

This webinar is approved for 1.0 hour of P.A.C.E.® credit, and has been approved for 1.0 contact hours in the General (Microbiology/ Mycology/ Parasitology) category for Florida Laboratory Licensees.

P.A.C.E.® Course#: 288-007-15, FL Course#: 20-495901.

Sponsored by the National Laboratory Training Network (NLTN)

The National Laboratory Training Network is a Training System Sponsored by the Association of Public Health Laboratories (APHL) and The Centers for Disease Control and Prevention (CDC) www.aphl.org/training/nltn

Objectives:

At the conclusion of this program, the participant will be able to:

- List some of the applications of telediagnosis.
- Identify morphologic challenges which complicate the diagnosis of rare parasitic diseases.

Target Audience:

This webinar is of interest to public health laboratorians.

Access Requirements

To participate in this webinar, you will need a computer with internet access and speakers or a headphone to hear the audio.
