

# Introduction to the Strategic National Stockpile

Sponsored by the Centers for Disease Control and Prevention Laboratory Training Branch

## Course Number

P.A.C.E.® Course Number: 288-025-14, FL Course Number: 20-459883

## Description

The CDC Strategic National Stockpile (SNS) is a national repository of medicine and medical supplies, such as antibiotics, chemical antidotes, antitoxins, life-support medications, and IV administration equipment. The medicine and medical supplies are stockpiled to protect the American public if a public health emergency occurs. This webinar will discuss the mission, capabilities, and operational concepts of the SNS and the different roles governments play in a large-scale public health emergency response.

## Audience

This basic-level webinar is intended for public health and clinical laboratory supervisors, scientists, technicians, and other individuals involved in laboratory emergency preparedness activities.

## Objectives

At the conclusion of this program, the participant will be able to:

- Describe Strategic National Stockpile mission and response methods
- Describe Strategic National Stockpile specific roles in a public health emergency response

## Faculty

*Tom Jackson, BA, MBA*

*Barbara Cooper, BS, MSPH*

Response Branch, Division of Strategic National Stockpile

Office of Public Health Preparedness and Response, Centers for Disease Control and Prevention, Atlanta, GA
