Trichomoniasis is the most common non-viral sexually transmitted disease in the United States and worldwide. While it has sometimes been considered of low consequence to patients’ health, newer information suggests it can contribute to increased susceptibility to other infections. It is also thought to contribute to adverse outcomes of pregnancy. The presentation will cover Identification and management of drug resistant infections.

William E. Secor, Ph.D.,
Associate Director for Laboratory Science, Division of Parasitic Diseases and Malaria (DPDM), Center for Global Health (CGH), CDC
Objectives
At the conclusion of this program, the participant will be able to:

- Discuss how to assess *Trichomonas vaginalis* infections.
- Describe the treatment of *Trichomonas vaginalis* infections.
- Explain the process to seek treatment for patients with drug resistant infections or for individuals with hypersensitivity.

Target Audience
This basic-level webinar is intended for laboratory professionals.

Access Requirements
To participate in this webinar, you will need a computer with internet access and speakers or headphones to hear the audio. To test your system, visit [https://admin.acrobat.com/common/help/en/support/meeting_test.htm](https://admin.acrobat.com/common/help/en/support/meeting_test.htm)

Special Needs
Course content is closed captioned where applicable and optimized for a screen reader.

FREE WEBINAR
REGISTRATION DEADLINE IS APRIL 5, 2017

- Locate the course online under Live Webinars at [www.cdc.gov/labtraining](http://www.cdc.gov/labtraining)
- Follow the link to register for the course in TRAIN.
- Once you have registered, you will receive a detailed confirmation letter by email.
- This webinar will be archived on TRAIN approximately 3 weeks after each live event.
- The webinar has 1000 seats available on a first come, first served basis.
- If you have difficulty with the online registration process, please email labtraining@cdc.gov.

CEUs
The Centers for Disease Control and Prevention, Laboratory Training and Services Branch, is approved as a provider of continuing education programs in the clinical laboratory sciences by the ASCLS P.A.C.E.® Program.

This webinar is approved for 1.0 hour of P.A.C.E.® credit, and has been approved for 1.0 contact hours in the General (Microbiology/ Mycology/ Parasitology) category for Florida Laboratory Licensees.

P.A.C.E.® Course#: 288-005-17  Florida Course#: 20-563855

Sponsored by the National Laboratory Training Network (NLTN).
The National Laboratory Training Network is a training system sponsored by the Association of Public Health Laboratories (APHL) and the Centers for Disease Control and Prevention (CDC).
