Good Laboratory Practices for Molecular Genetics Testing
Sponsored by the Centers for Disease Control and Prevention
National Laboratory Training Network

Course Number
P.A.C.E.® Course Number: 288-022-16
FL Course Number: 20-367272

Description
This on-line learning module is presented in first person. This means the learner is actually depicted as getting an assignment and doing the work throughout the course. This training is not meant to be prescriptive. There are several different ways to obtain information and perform the tasks described in the training. We are simply providing examples of potential options. The characters and scenarios in this training are fictitious and are based on possible real-life situations. For the purposes of this training module, the manufacturer details are fictional and do not indicate CDC’s support for any commercially available product or service. Although some of the recommendations in this training exceed CLIA and other requirements that pertain to molecular genetic testing, following these good laboratory practices will likely lead to improvements in the quality and use of genetic laboratory services and should improve health outcomes for the public.

Audience
Laboratorians (including laboratory directors) who perform molecular genetics testing or are considering adding it to the laboratories testing menu.

Objectives
At the conclusion of this program, the participant will be able to:

- Define how to comply with CLIA requirements as they apply to molecular genetic testing.
- Select quality management approaches for molecular genetic testing Consistent with good laboratory practices and the testing performed in your laboratory.
- Develop policies, processes, and procedures for the molecular genetic testing performed in your laboratory consistent with both CLIA requirements and good laboratory practices

Registration - Free Registration
- Locate the course online at www.cdc.gov/labtraining
- Follow the link to register for the course in TRAIN
- If you have difficulty with the online registration process, please email labtraining@cdc.gov
- For additional program information, email labtraining@cdc.gov or call (404) 498-6022
Continuing Education
The Centers for Disease Control and Prevention Laboratory Training Branch is approved as a provider of continuing education programs in the clinical laboratory sciences by the ASCLS P.A.C.E. ® Program. This course is approved for 1.5 contact hours.

This course has been approved for 1.5 contact hour in the category of Supervision/Administration, Quality Control/Quality Assurance, and Safety for Florida Laboratory Licensees.

The Centers for Disease Control and Prevention designates this educational activity for a maximum of 2.0 AMA PRA Category 1 Credits™. CDC, our planners, and our content experts wish to disclose they have no financial interests or other relationships with the manufacturers of commercial products, suppliers of commercial services, or commercial supporters. Planners have reviewed content to ensure there is no bias.

Special Needs
Course content is closed captioned where applicable and optimized for a screen reader.
