Diagnosis and Treatment of Hereditary Hemochromatosis
PEP 2009-R-04
May 18, 2009
Teleconference

Record of the Proceedings

2009-R-04 Meeting Minutes

2009-R-04: Diagnosis and Treatment of Hereditary Hemochromatosis

Dates and Time:

Monday, May 18, 2009

Start Time: 2:06 p.m.

End Time: 3:40 p.m.

Location of Meeting:

2500 Century Center, Conference Room 1203

Membership Roster:

Lemuel Evans, Ph.D. **Scientific Review Administrator**

Scientific Review Officer

SRA International, Inc.

Health and Civil Services Sector

Gordon McLaren, M.D. **Chairperson-Teleconference**

Professor of Medicine

University of California, Irvine

RCF Expertise: Disorders of Iron Metabolism, Including Hemochromatosis;
Intestinal Iron Absorption; Regulation of Cellular Iron-Binding Proteins

Michael Chorney, Ph.D., B.S.

Professor of Microbiology and Immunology

Pennsylvania State University

RCF Expertise: Genetics Determinants in Hemochromatosis; HFE Proteins;
Immunological aspects of iron regulation

James Drysdale, Ph.D.

Professor Emeritus

Tufts University School of Medicine

Department of Biochemistry

RCF Expertise: Ferritin, Mammalian Gene Expression and Hemochromatosis

2009-R-04 Meeting Minutes

Caroline Enns, Ph.D.
Associate Professor
Oregon Health Sciences University
RCF Expertise: Hemochromatosis Protein Function; Transferrin Studies

Chandra Srinivasan, Ph.D.
Associate Professor
California State University Fullerton
Chemistry & Biochemistry
RCF Expertise: Metal metabolism; Oxidative Stress; Antioxidants; Free Radicals;
Aging; Protein Expression and Purification; Use of Chemical Techniques in
Biological Model Systems.

Names of Others in Attendance:

Dogan Eroglu, CDC/NCHM

Sabrina Harper, CDC/NCHM

Linda Shelton, CDC/NCHM

Michael Long, SRA/Constella

Rene Esler, SRA/Constella

Cindy Thompson, SRA/Constella

Michael Dalmat, CDC/ERPO

Number and Types of Grants Reviewed (as well as dollars requested):

All applications reviewed were submitted in response to 2009-R-04: Diagnosis and Treatment of Hereditary Hemochromatosis.

A total of one application was reviewed.

The total amount requested: \$99,995.00

2009-R-04 Meeting Minutes

Number of Applications and dollar amounts favorably recommended:

One application was recommended for further consideration in the amount of \$99,995.00

Number of applications and dollar amounts not recommended for further consideration:

None

Number of applications and dollar amounts recommended for deferral.

None

Individuals certifying accuracy of report

Doğan Eroğlu, Ph.D., CDC- Designated Federal Official

Gordon McLaren, M.D., Chairperson

Roster Short

Session Date: 05/18/2009 - 05/18/2009

Diagnosis and treatment of hereditary hemochromatosis

Lemuel Evans, Ph.D. **Scientific Review Administrator**

Scientific Review Officer

SRA International, Inc.

Health and Civil Services Sector

Gordon McLaren, M.D. **Chairperson-Teleconference**

Professor

University of California, Irvine

Medicine

RCF Expertise: Disorders of Iron Metabolism, Including Hemachromatosis;

Intestinal Iron Absorption; Regulation of Cellular Iron-Binding Proteins

Michael Chorney, Ph.D., B.S.

Professor

Pennsylvania State University

Microbiology and Immunology

RCF Expertise: Genetics Determinants in Hemachromatosis; HFE Proteins;

Immun.aspects of Iron Reg.

James Drysdale, Ph.D.

Professor Emeritus

Tufts University School of Medicine

Department of Biochemistry

RCF Expertise: Ferritin, Mammalian Gene Expression and Hemachromatosis

Caroline Enns, Ph.D.

Associate Professor

Oregon Health Sciences University

Dept Cell & Devel Biol

RCF Expertise: Hemachromatosis Protein Function; Transferrin Studies

Chandra Srinivasan, Ph.D.

Associate Professor

California State University Fullerton

Chemistry & Biochemistry

RCF Expertise: Metal metabolism; Oxidative Stress; Antioxidants; Free Radicals;

Aging; Protein Expression and

Purification; Use of Chemical Techniques in Biological Model Systems.
