

CENTERS FOR DISEASE CONTROL AND PREVENTION (C)

The Centers for Disease Control and Prevention (CDC) serves as the national focus for developing and applying disease prevention and control, environmental health, and health promotion and health education activities designed to improve the health of the people of the United States.

To accomplish its mission, CDC identifies and defines preventable health problems and maintains active surveillance of diseases through epidemiologic and laboratory investigations and data collection, analysis, and distribution; serves as the PHS lead agency in developing and implementing operational programs relating to environmental health problems, and conducts operational research aimed at developing and testing effective disease prevention, control, and health promotion programs; administers a national program to develop recommended occupational safety and health standards and to conduct research, training, and technical assistance to assure safe and healthful working conditions for every working person; develops and implements a program to sustain a strong national workforce in disease prevention and control; and conducts a national program for improving the performance of clinical laboratories.

CDC is responsible for controlling the introduction and spread of infectious diseases, and provides consultation and assistance to other nations and international agencies to assist in improving their disease prevention and control, environmental health, and health promotion activities. CDC administers the Preventive Health and Health Services Block Grant and specific preventive health categorical grant programs while providing program expertise and assistance in responding to Federal, State, local, and private organizations on matters related to disease prevention and control activities.

Office of the Director, CDC (CA)

- (1) Manages and directs the activities of the Centers for Disease Control and Prevention;
- (2) provides leadership for the implementation of CDC's responsibilities related to disease prevention and control;
- (3) advises the Assistant Secretary for Health and Surgeon General on policy matters concerning CDC activities;
- (4) participates in the development of CDC goals and objectives;
- (5) provides overall direction and coordination to the epidemiologic activities of the Centers for Disease Control and Prevention;
- (6) coordinates the CDC response to health emergencies;
- (7) provides liaison with other governmental agencies, international organizations including the World Health Organization and the U.S. Agency for International Development, learning institutions, and other outside groups;
- (8) coordinates, in collaboration with the PHS Office of International Health, international health activities relating to disease prevention and control;
- (9) in cooperation with the PHS Regional Offices, provides or obtains technical assistance for State and local health departments and private and official agencies as needed;
- (10) provides overall direction to, and coordination of, the scientific/medical programs of CDC;
- (11) plans, promotes, and coordinates an ongoing program to assure equal employment opportunities in CDC;
- (12) provides leadership, coordination, and assessment of administrative

management activities; (13) coordinates or assures coordination with the appropriate PHS staff offices on administrative and program matters; (14) coordinates the consumer affairs activities for CDC; (15) provides leadership, policy guidance, coordination, technical expertise, and services to promote the development and implementation of the Agency's Genomics Program. (Approved 3/8/2004)

Program Performance and Evaluation Office (CA1)

The mission of the Program Performance and Evaluation Office (PPEO) is to increase the impact and effectiveness of public health programs through innovation and sound program design and the use of performance and evaluation data for continuous improvement. In carrying out this mission, PPEO: (1) Provides agency-wide direction, standards, and technical assistance for program planning, performance and accountability, and program evaluation and effectiveness; (2) serves as advisor to the CDC Principal Deputy Director and the CDC Director's Office on key programmatic activities; (3) provides intensive analytic and advisory assistance to enable effective redesign of select program priorities; (4) represents the CDC vision, mission, and program strategy internally and externally; (5) develops and promotes new initiatives based on emerging issues, science, and policy; (6) supports the harmonization and integration of performance measurement, accountability, and program evaluation; (7) provides agency-wide direction, standards, and technical assistance to support and guide program evaluation, monitoring, and performance measurement by programs; (8) guides the collection and analysis of performance and accountability data, including Healthy People 2020, the Program Assessment Rating Tool and the Government Performance and Results Act; (9) supports assessment of program effectiveness to guide further science, policy, and programmatic efforts; (10) manages evaluation fellowship; (11) guides performance-based strategic planning; (12) drives short-term and long-term program planning; (13) establishes routine, continuous improvement based on effective program evaluation, and performance measurement; (14) supports evidence-driven program redesign; (15) coordinates action planning for high impact initiatives; and (16) develops, promotes and coordinates new initiatives.
