

Lisa Romero, DrPH, MPH

Health Scientist, Division of Reproductive Health,
National Center for Chronic Disease Prevention and
Health Promotion

Lisa Romero, DrPH, MPH is a Health Scientist in the Division of Reproductive Health at CDC. She coordinates implementation of the Division- and Agency-wide strategy for CDC's Winnable Battle of Teen Pregnancy Prevention. In this role, she provides technical, scientific, and programmatic support to state and national grantees in implementing key components of the "Teenage Pregnancy Prevention: Integrating, Programs, and Strategies through Community-wide Initiatives" program, a joint effort of the Office of the Secretary of Health (OASH) and CDC to prevent teen pregnancy and births in communities with the highest rates. Dr. Romero has published on a wide range of topics including adolescent health, youth-friendly reproductive health services, and implementation of evidence-based clinical practices in adolescent reproductive health.

Dr. Romero received her doctorate in public health from the University of California, Berkeley.
