

Improving the Health of Millions of Infants, Children, and Adolescents Through Increasing Use of Clinical Preventive Services

Millions of Infants, Children, and Adolescents **DID NOT** Receive Selected Clinical Preventive Services. Examples include:

* Baseline data were collected prior to 2012, before or shortly after ACA implementation

What Can Be Done?

Improve Links Between:

Healthcare Providers

Public Health Agencies

- Incorporate clinical preventive services into practice
- Inform parents about CDC's Prevention Checklist so they can find out about the care their children need
Visit: www.cdc.gov/prevention
- Adopt electronic and personal health records

- Reduce barriers to clinical preventive services
- Implement community-based clinical preventive services
- Expand use of health information technology
