

Course Detail

Diagnosis and Management of Q Fever-United States, 2012: Recommendations from CDC and the Q Fever Working Group

Course Number: [WB2248](#)

CE Origination Date: March 29, 2013

CE Expiration Date: March 29, 2015

Goal

The goal of this report is to provide healthcare practitioners and public health professionals a practical overview on the diagnosis, treatment, management and reporting of Q fever patients in the United States.

Objectives

- 1) Describe common epidemiologic features of Q fever
- 2) Describe common clinical manifestations of acute and chronic Q fever
- 3) Identify the limitations and utility of laboratory assays for Q fever
- 4) Identify appropriate treatment for patients with acute and chronic Q fever
- 5) Identify appropriate occupational guidelines for workers at high risk for Q fever exposure

Intended Audience

Physicians, Registered Nurses, Veterinarians, Laboratorians, Medical Assistants, Physician Assistants, Public Health Professionals, Health care workers

Content Experts/Prepares

Anderson, Alicia, DVM, MPH, Dipl ACVPM, Senior Epidemiologist, National Center for Emerging and Zoonotic Infectious Diseases, CDC
