Everyone can play a role in supporting more inclusive state programs, communities, and health care to help people with, or at risk for, disabilities be well and active in their communities. Join CDC and its partners as we work together to improve the health of people with disabilities.

Adults with disabilities in Guam experience health disparities and are more likely to...

- Have Obesity: 43% with disability, 28% without disability
- Smoke: 27% with disability, 20% without disability
- Have Diabetes: 21% with disability, 9% without disability
- Have Heart Disease: 9% with disability, 3% without disability
