Disability and HEALTH

Adults with disabilities are more likely to

- have an unmet healthcare need because of cost in the past year

- did not have a usual healthcare provider

- did not have a routine check-up in the past year

Making A DIFFERENCE

PUBLIC HEALTH IS FOR ALL OF US

Healthcare access barriers for working-age adults include

- 1 in 4 adults with disabilities (18-44 years)
- did not have a usual healthcare provider
- have an unmet healthcare need because of cost in the past year
