

# FETAL ALCOHOL SPECTRUM DISORDERS

## Regional Training Centers

CDC funds five Fetal Alcohol Spectrum Disorders (FASD) Regional Training Centers (RTCs). The FASD RTCs are university-based centers that provide trainings to medical and allied health students and practitioners regarding the prevention, identification, and treatment of FASDs. More information about each RTC's services, training materials, and resources can be obtained from:

### Arctic FASD Regional Training Center University of Alaska Anchorage

Center for Behavioral Health Research & Services  
Anchorage, Alaska  
Diane King, PhD

National Center on Birth Defects and Developmental Disabilities  
Division of Birth Defects and Developmental Disabilities

## FASD RTC Trainings

The FASD Regional Training Centers offer trainings for medical and allied health students and practitioners covering the following seven learning competencies:

1. Foundation of FASDs
2. Alcohol Screening and Brief Intervention
3. Models of Addiction
4. Biological Effects of Alcohol on the Fetus
5. Screening, Diagnosis, and Assessment of FAS
6. Treatment Across the Lifespan for Persons with FASDs
7. Ethical, Legal, and Policy Issues

## FASD Curriculum Guide Available!

The *FASD Competency-Based Curriculum Development Guide for Medical and Allied Health Education and Practice* is designed to improve prevention, identification, and management of FASDs and can be used to develop educational programs and materials in a range of formats based on the needs of learners. The Guide is available for download and to order from [www.cdc.gov/fasd](http://www.cdc.gov/fasd).

## FASD Regional Training Centers\*

- Arctic RTC, Univ of Alaska Anchorage
- Midwest RTC, Univ of Missouri
- Great Lakes RTC, Univ of Wisconsin
- Southeastern RTC, Meharry Medical College
- Frontier RTC, Univ of Nevada Reno

\*If your state is not covered by a current RTC, you can still contact any of the RTCs to ask about attending or hosting a training.
