

Centers for Disease Control and Prevention
Division of Community Health

AWARDEE FUNDING BY STATE

Fiscal Year 2014

The U.S. Department of Health and Human Services continues its long-standing dedication to improving the health and wellness of all Americans. Programs administered and supported by the Centers for Disease Control and Prevention include National Implementation and Dissemination for Chronic Disease Prevention, Partnerships to Improve Community Health (PICH), and Racial and Ethnic Approaches to Community Health (REACH).

These programs enable awardees to implement community-level interventions that prevent chronic diseases where people live, learn, work, and play. Funded initiatives support governmental agencies and nongovernmental organizations, including school districts, local governments, hospital and health systems, community-based organizations, public health offices, and American Indian tribes.
