

CDC Lead Poisoning Prevention in Newly Arrived Refugee Children Facilitator's Guide

Facilitator's Guide

Purpose of Presentations: To provide information about CDC's recommendations for preventing and treating lead poisoning in newly arrived refugee children and to promote these recommendations in your state and/or local jurisdiction.

How to Use the Presentations:

- Use these presentations, or portions of them, as a training module to train your colleagues, refugee resettlement workers, medical service providers, and/or other counterparts on CDC's recommendations for preventing and treating lead poisoning in newly arrived refugee children.
- Modify the presentations to include your local data and to meet the needs and purpose of your target audience.
- Lesson plans and presentation notes have been provided to assist you with the training.
- These training modules are also available online at <http://www.cdc.gov/nceh/lead>.
