West Nile virus

Tickborne disease:
Lyme disease

Vector-borne disease cases

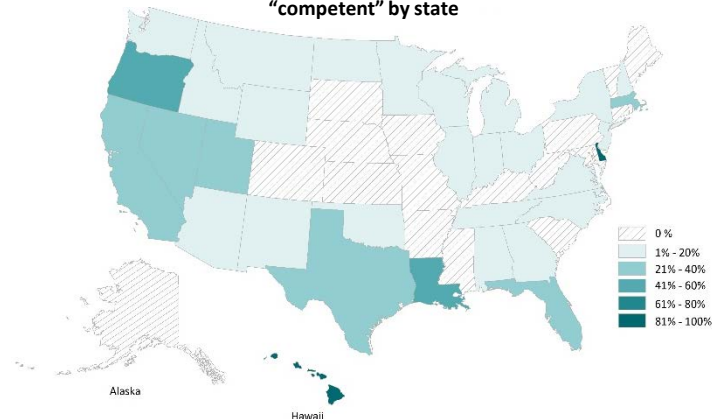

■ Mosquito-borne disease cases
■ Tickborne disease cases

Mosquito-borne and tickborne disease cases, 2004-2018

About the data: Centers for Disease Control and Prevention. National Notifiable Diseases Surveillance System, Annual Tables of Infectious Disease Data. Atlanta, GA. CDC Division of Health Informatics and Surveillance, 2004-2018.

Percentage of vector control programs ranked as “fully capable” or “competent” by state

Illinois is vulnerable. State and local public health agencies can help address the growing threat:

- Build and sustain public health programs.
- Train vector control staff.
- Educate the public about how to prevent bites and control vector-borne disease in their communities.
